

CLIPTI TRIDENT
The Ultimate Unified Creator Wearable System
🦂 Ring + Band + NFC = ONE Ecosystem

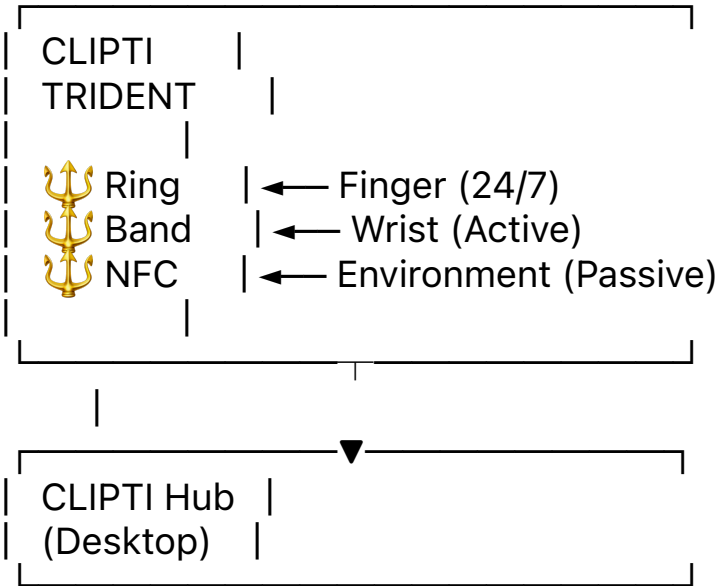

Version 3.0 — The Trident Vision

1. The Vision: Trident

What Is Trident?

The **CLIPTI Trident** is the world's first unified creator wearable ecosystem that combines three form factors into one seamless system:

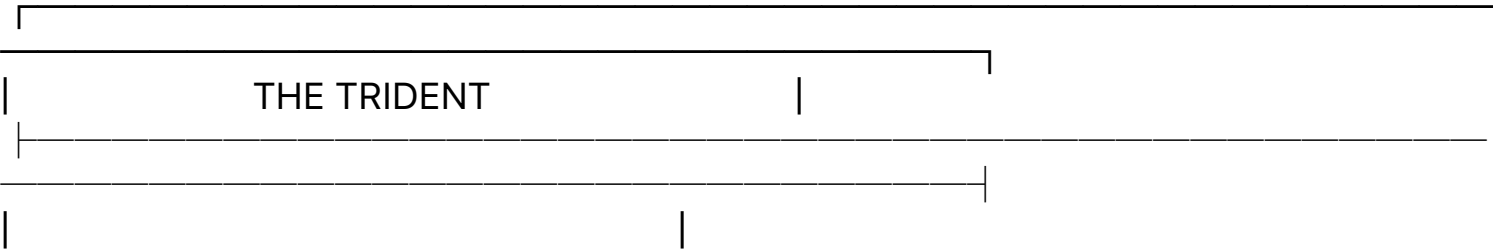

...

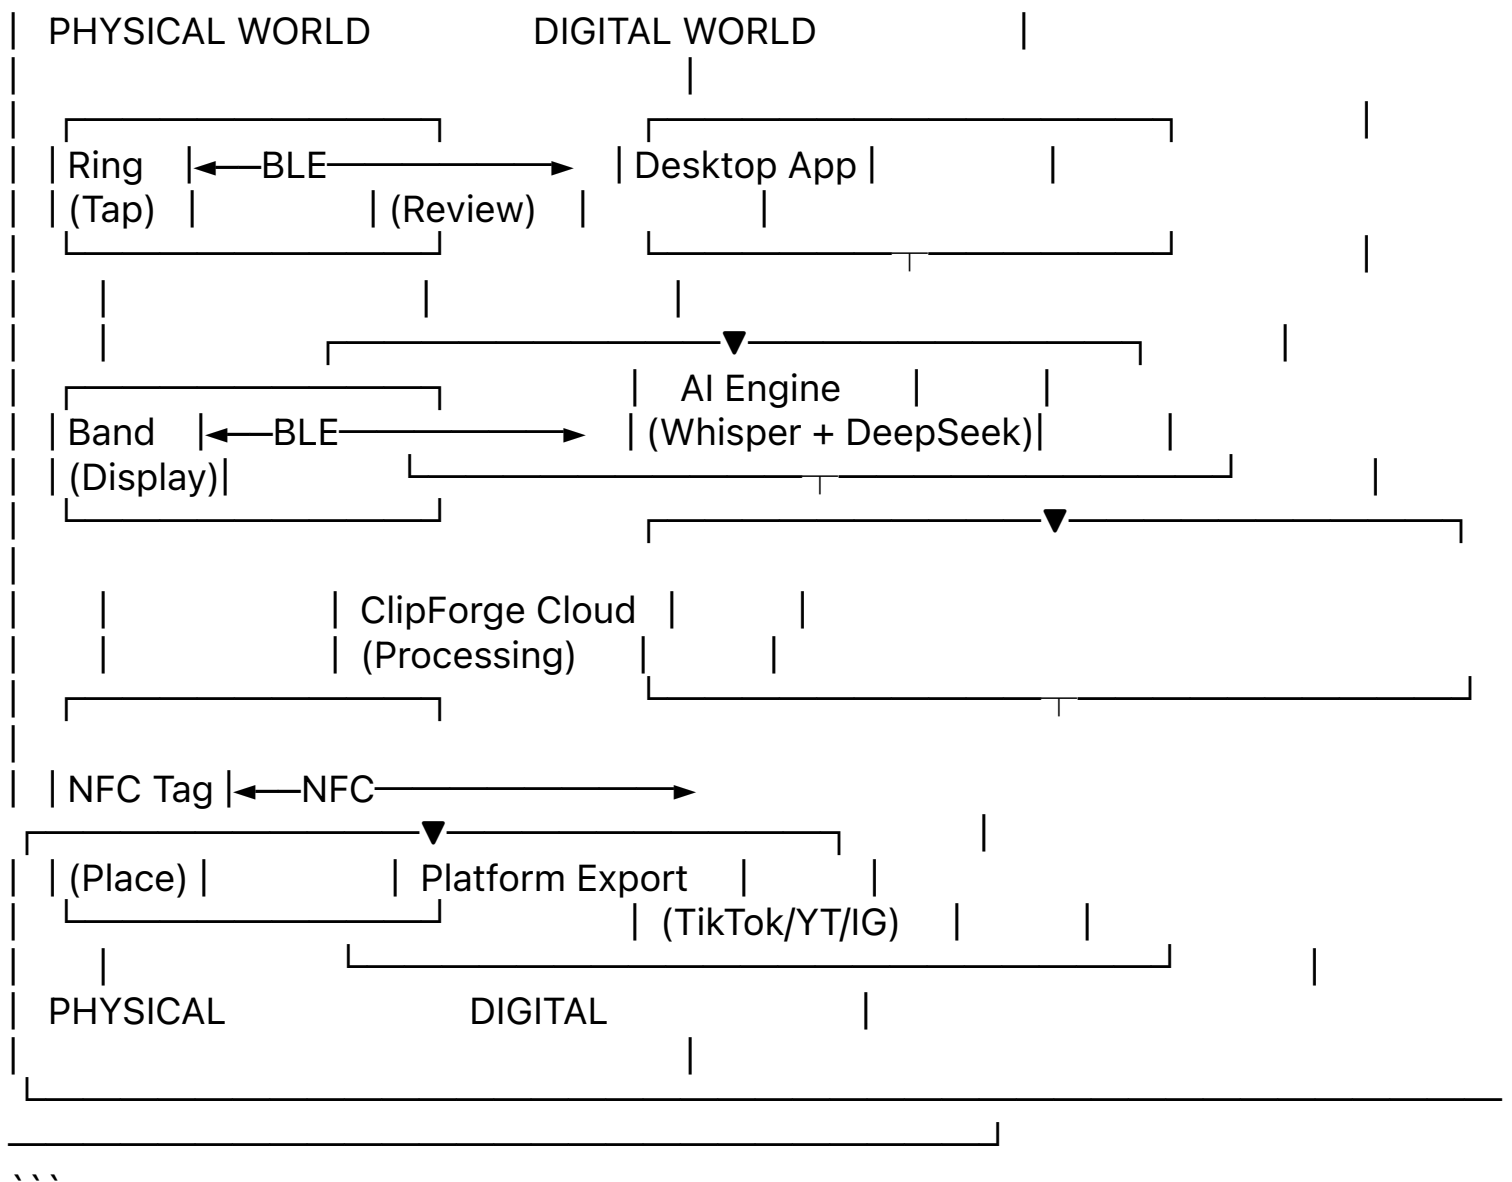

...

The Philosophy: Bridge Physical & Digital

...

Why "Trident"?

The trident symbolizes:

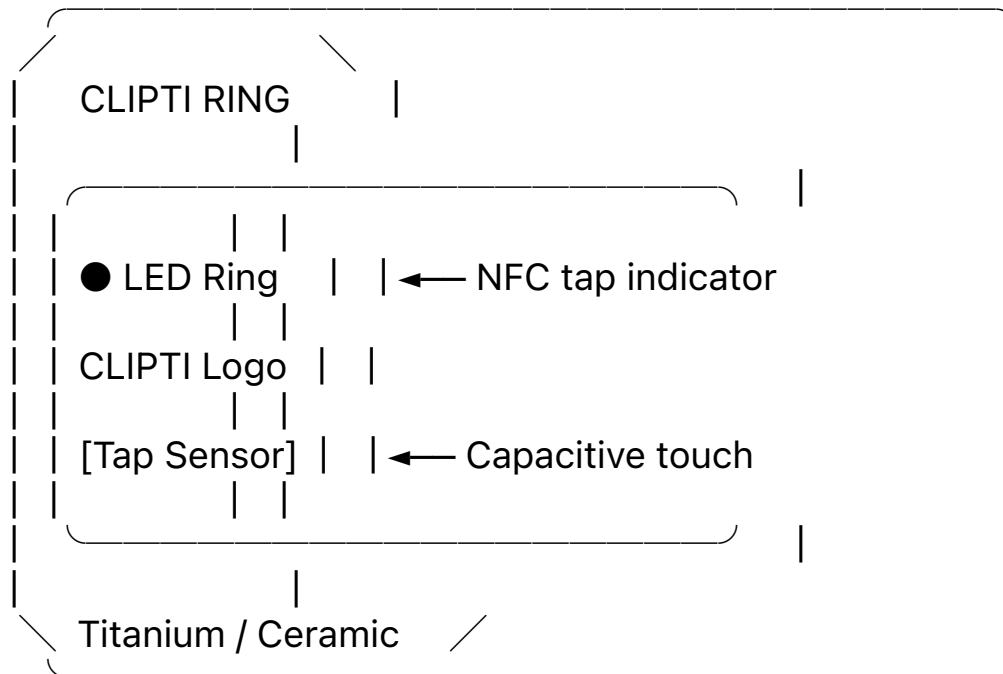

- **Three prongs = Three form factors** (Ring, Band, NFC)
- **Power = Unified AI system** (not just separate devices)
- **Reach = Bridge creators to their audience** (physical → digital)
- **Command = Control your content** (tap → capture → export)

2. The Three Prongs

Prong 1: CLIPTI Ring (Wearable)

****The Ring: Always On, Always Ready****

...

Specifications:

- Weight: 4-6 grams
- Battery: 7 days
- Water: 5 ATM (50m)
- Materials: Grade 5 Titanium or Ceramic
- Sizes: 6-13 (US ring sizes)
- Colors: Matte Black, Brushed Silver, Gold

...

****Primary Functions:****

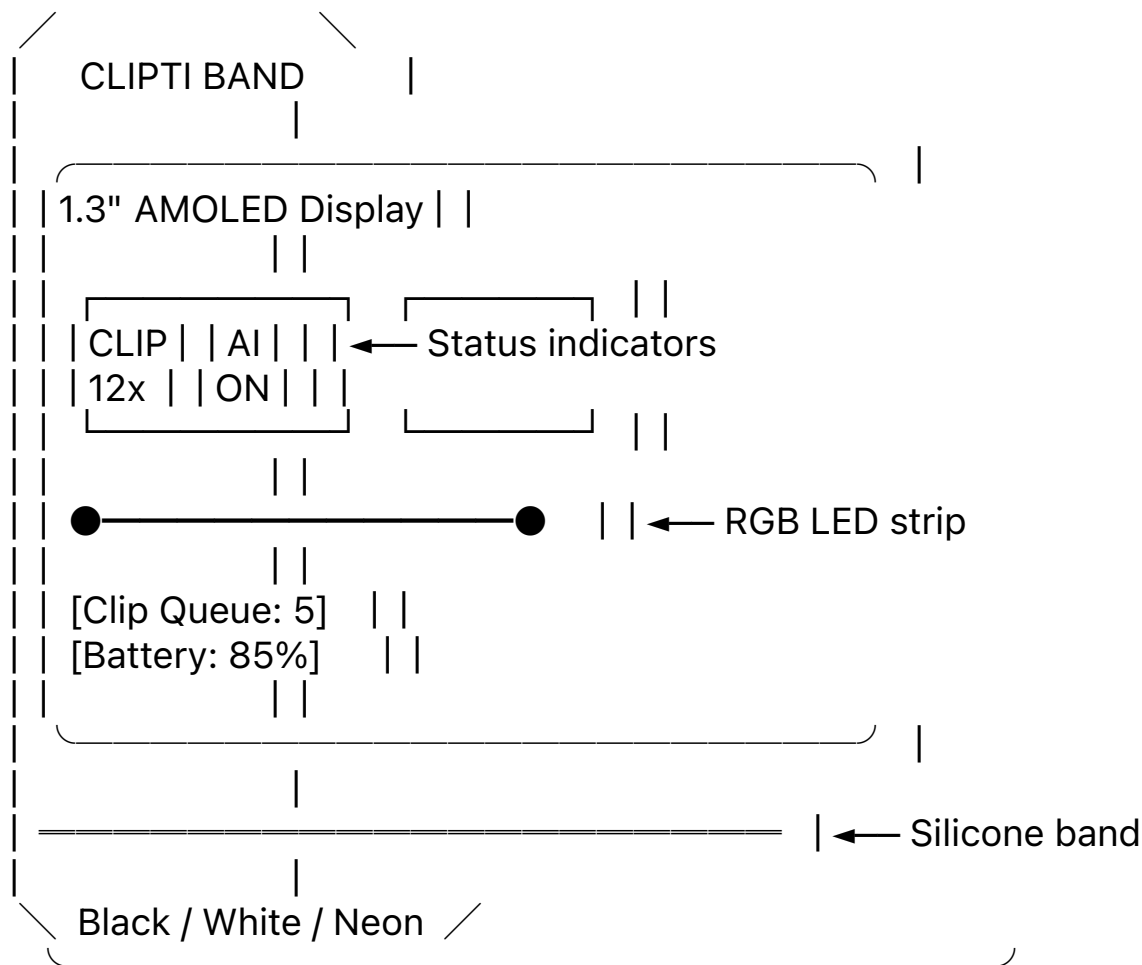

-  Single tap = Mark moment
-  Double tap = Start/stop recording
-  Long hold = Emergency/save
-  Gesture = Scroll through clips (twist)
-  Always on = 24/7 wearable

Prong 2: CLIPTI Band (Active)

****The Band: Display + Control + Feedback****

...

Specifications:

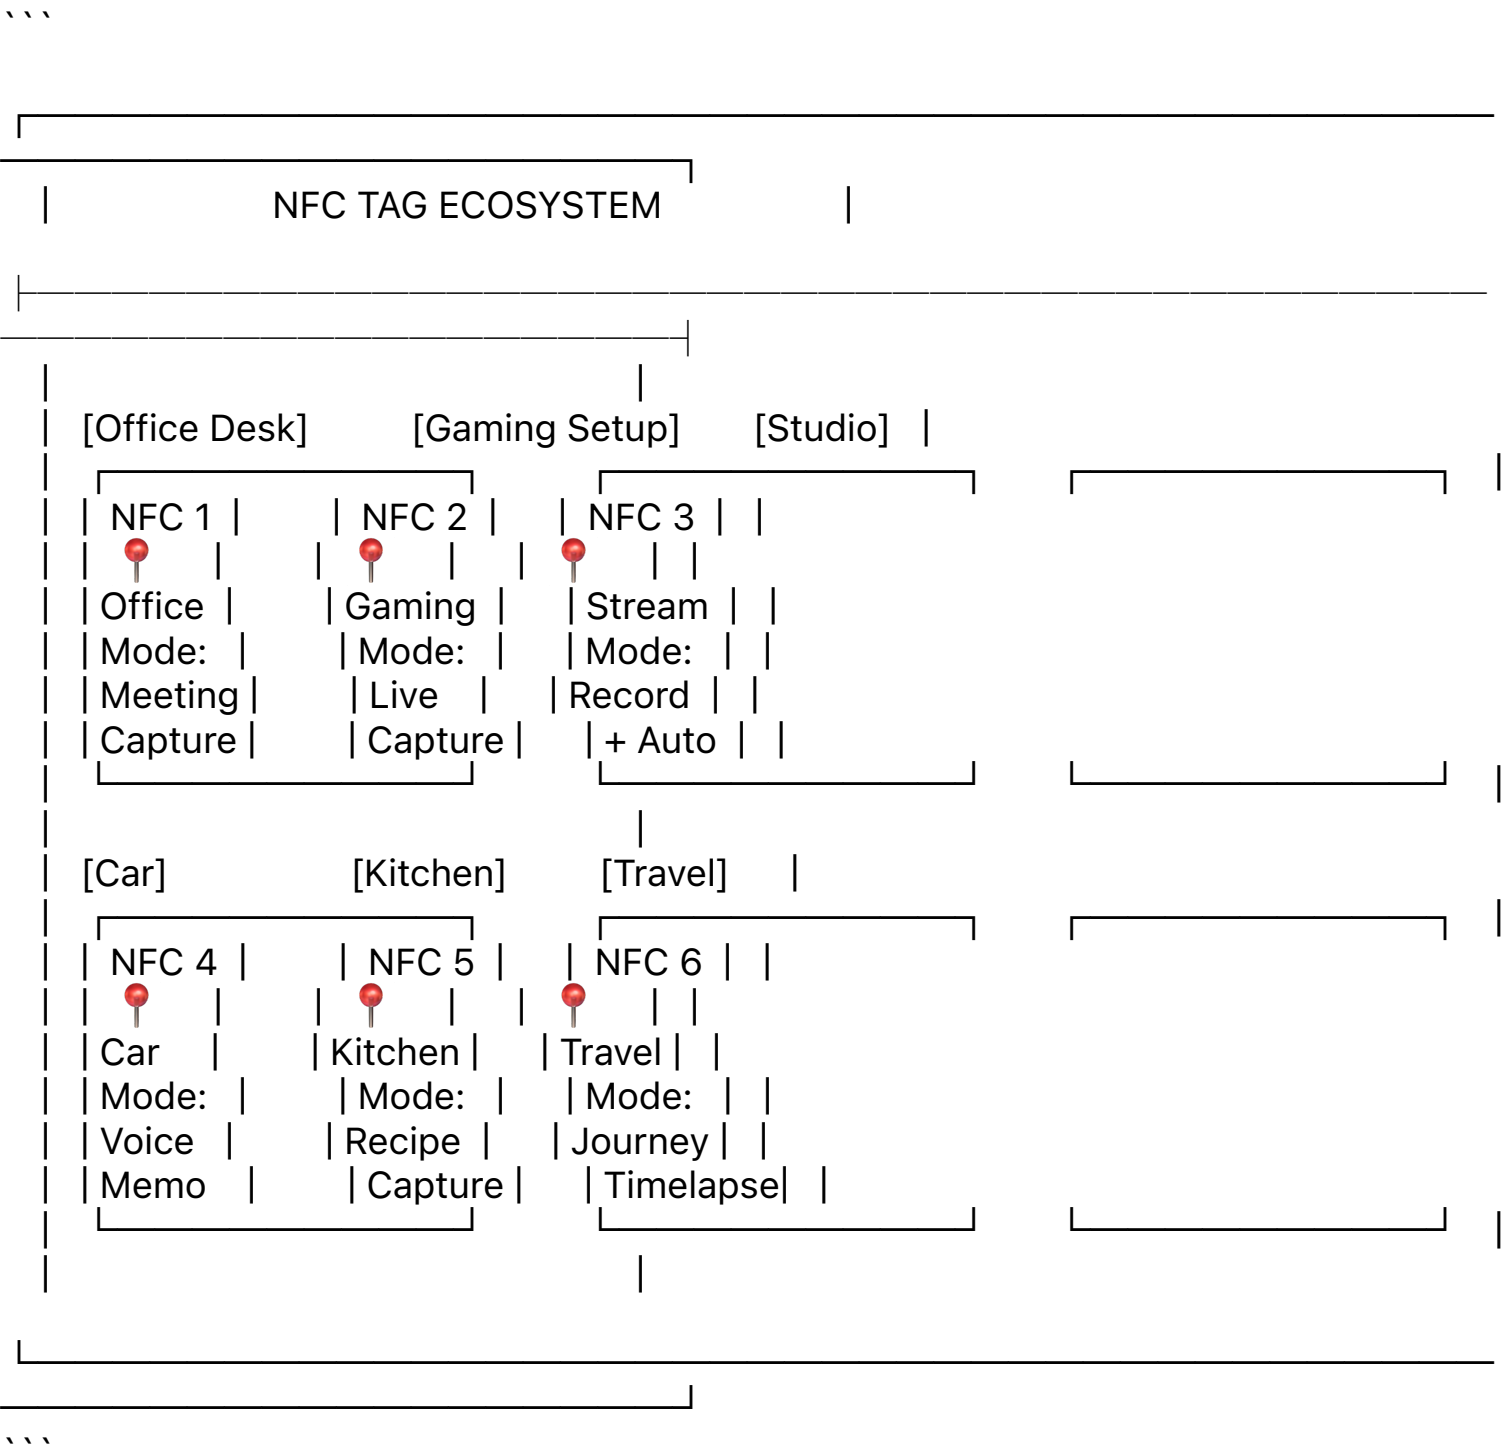

- Weight: 28 grams
- Battery: 5 days (200mAh)
- Water: 3 ATM (30m)
- Display: 1.3" 360x360 AMOLED
- Sensors: NFC, Accelerometer, Gyroscope, Heart Rate
- Haptic: Linear resonance actuator
- Colors: Black, Arctic White, Neon Green

Primary Functions:

- ☒ View clip queue
- ☒ Preview last clip
- ☒ Status display (battery, connection, queue)
- ☒ Quick actions (mark, review, export)
- ☒ Haptic confirmation
- ☒ RGB feedback

Prong 3: CLIPTI NFC (Environment)

****The NFC Tags: Smart Spaces, Passive Capture****

****NFC Tag Types:****

Tag Type	Location	Function	Trigger
...	...	...	...
Desk Tag	Office	Auto-start capture	Tap ring on tag

Gaming Tag	Setup	Stream mode + highlights	Tap to activate
Studio Tag	Recording	Pro recording settings	Tap to enable
Car Tag	Dashboard	Voice memos	Tap to record audio
Kitchen Tag	Fridge	Recipe clips	Tap to start
Travel Tag	Bag	Journey mode	Tap for timelapse

****Tag Specifications:****

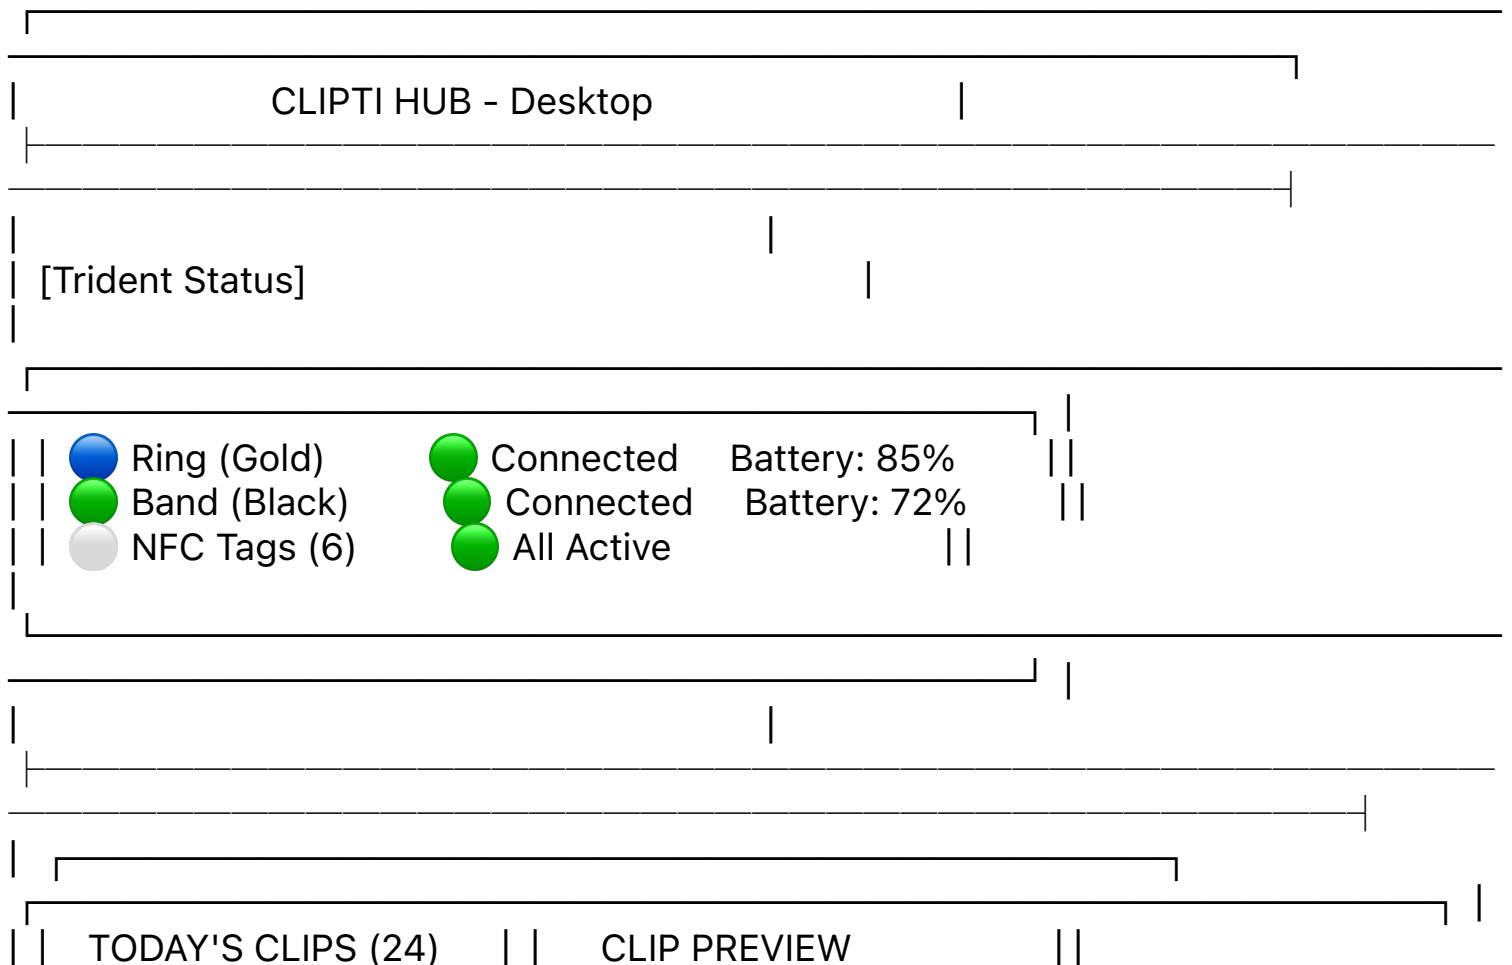

- **Cost**: \$5-15 each
- **Quantity**: 6 included, buy more
- **Battery**: None (passive NFC)
- **Custom**: Laser-engraveable
- **Range**: 1-5cm

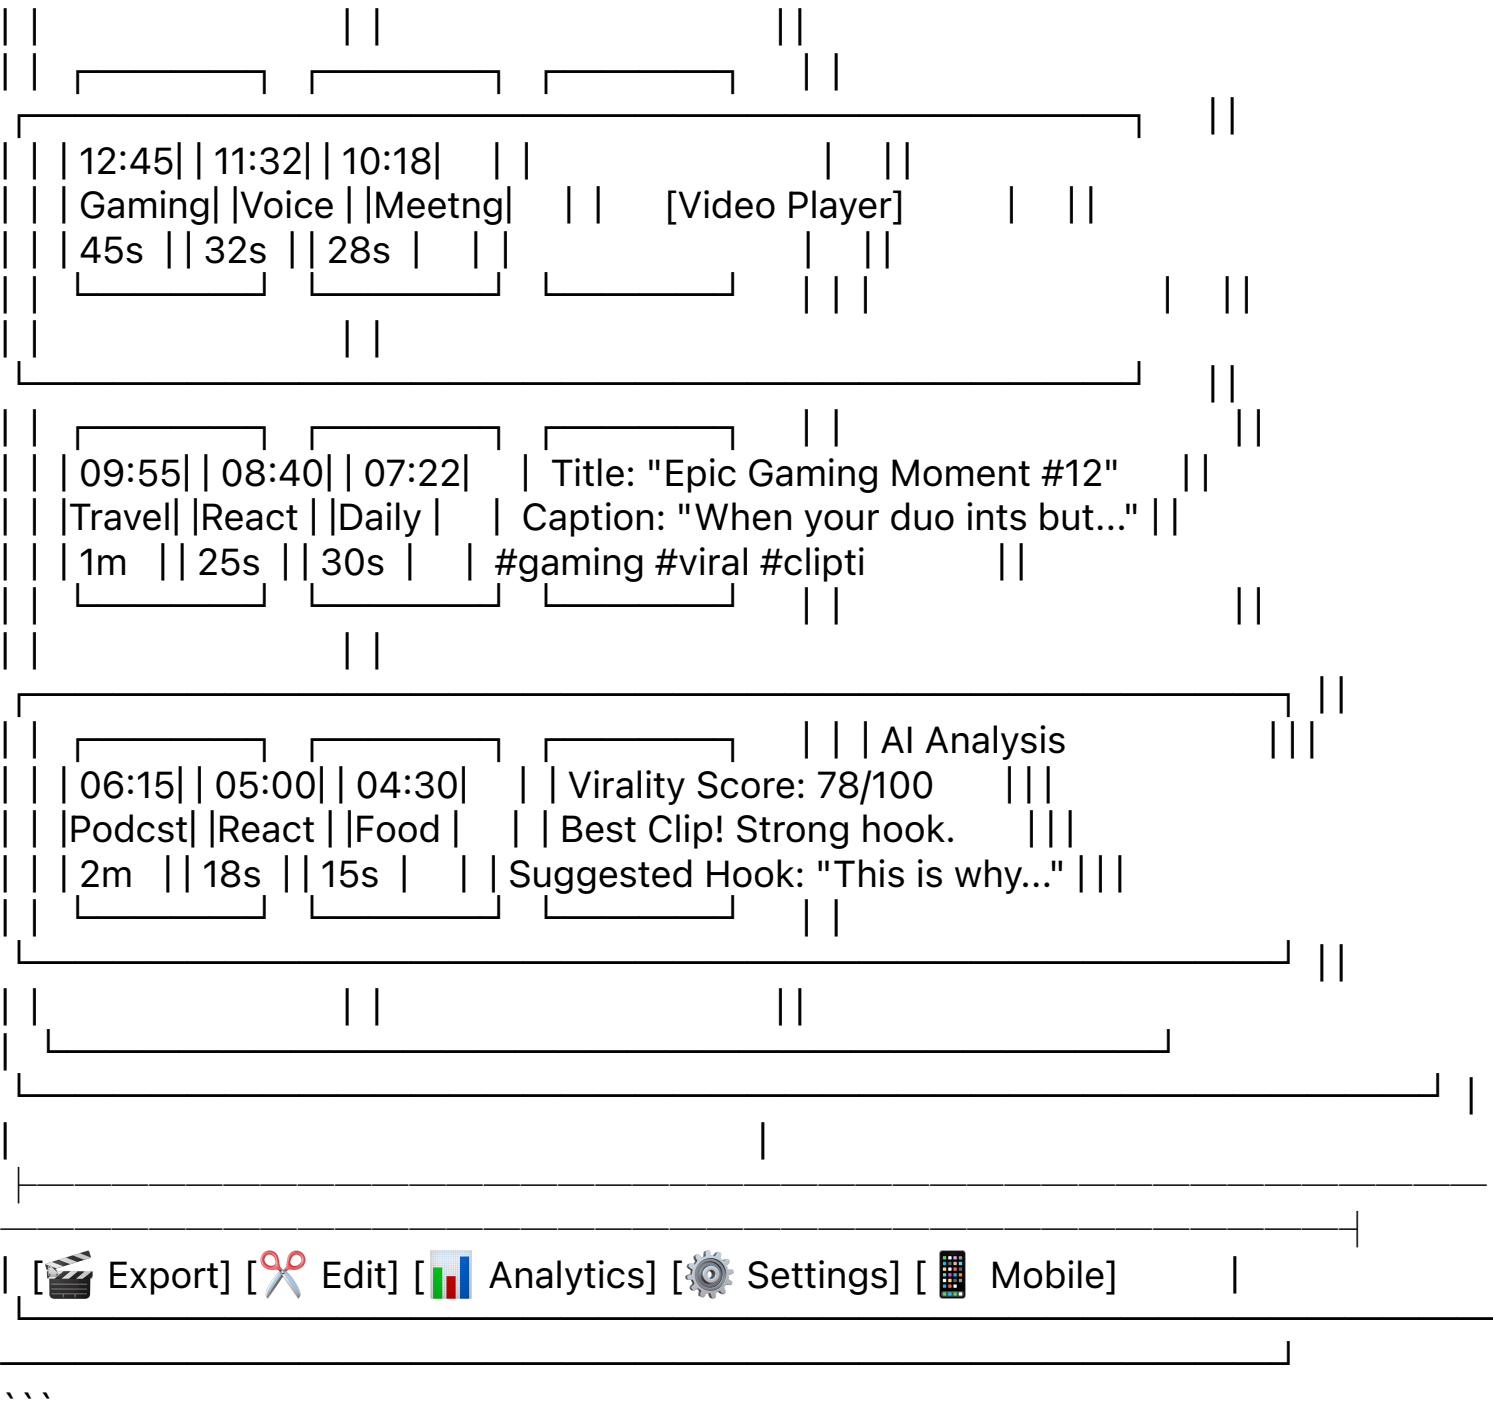

— — —

3. The Hub: Desktop App

CLIPTI Hub (Tauri Desktop Application)

///

Features

Feature	Description
Trident Status	Real-time view of Ring, Band, and NFC tags
Clip Queue	All clips from today with sources
AI Preview	Auto-generated captions, hooks, hashtags
Export Hub	One-click publish to TikTok, YT, IG
Analytics	Views, engagement, revenue tracking

| ****Settings**** | Device pairing, NFC tags, shortcuts |

4. How It All Works Together

The Unified Experience

...

SCENARIO: Creator streaming on Twitch

Step 1: Wake Up

Creator puts on CLIPTI Ring (never takes it off)

Band automatically syncs, shows "Ready"

Desktop Hub shows "Ring Connected"

Step 2: Start Gaming Session

Creator taps Ring on Gaming NFC Tag

Band switches to "Gaming Mode"

- Highlights auto-enabled
- Stream awareness ON
- High-quality capture

Desktop automatically opens stream settings

Step 3: Epic Moment Happens

Creator taps Ring (single tap)

Band: LED flashes gold, haptic buzz

Desktop: Last 30s auto-saved as clip

AI starts processing:

- Whisper transcription
- Caption generation
- Hook prediction

Step 4: Review on Band

Creator glances at Band

Band shows:

- Clip saved ✓
- "Epic Gaming Moment #12"
- 78% virality score

Tap Band to preview, double-tap to export

Step 5: Export

Creator taps Ring again

Desktop auto-edits:

- Adds captions
- Trims to 30s
- Adds trending hashtag

One-click post to TikTok

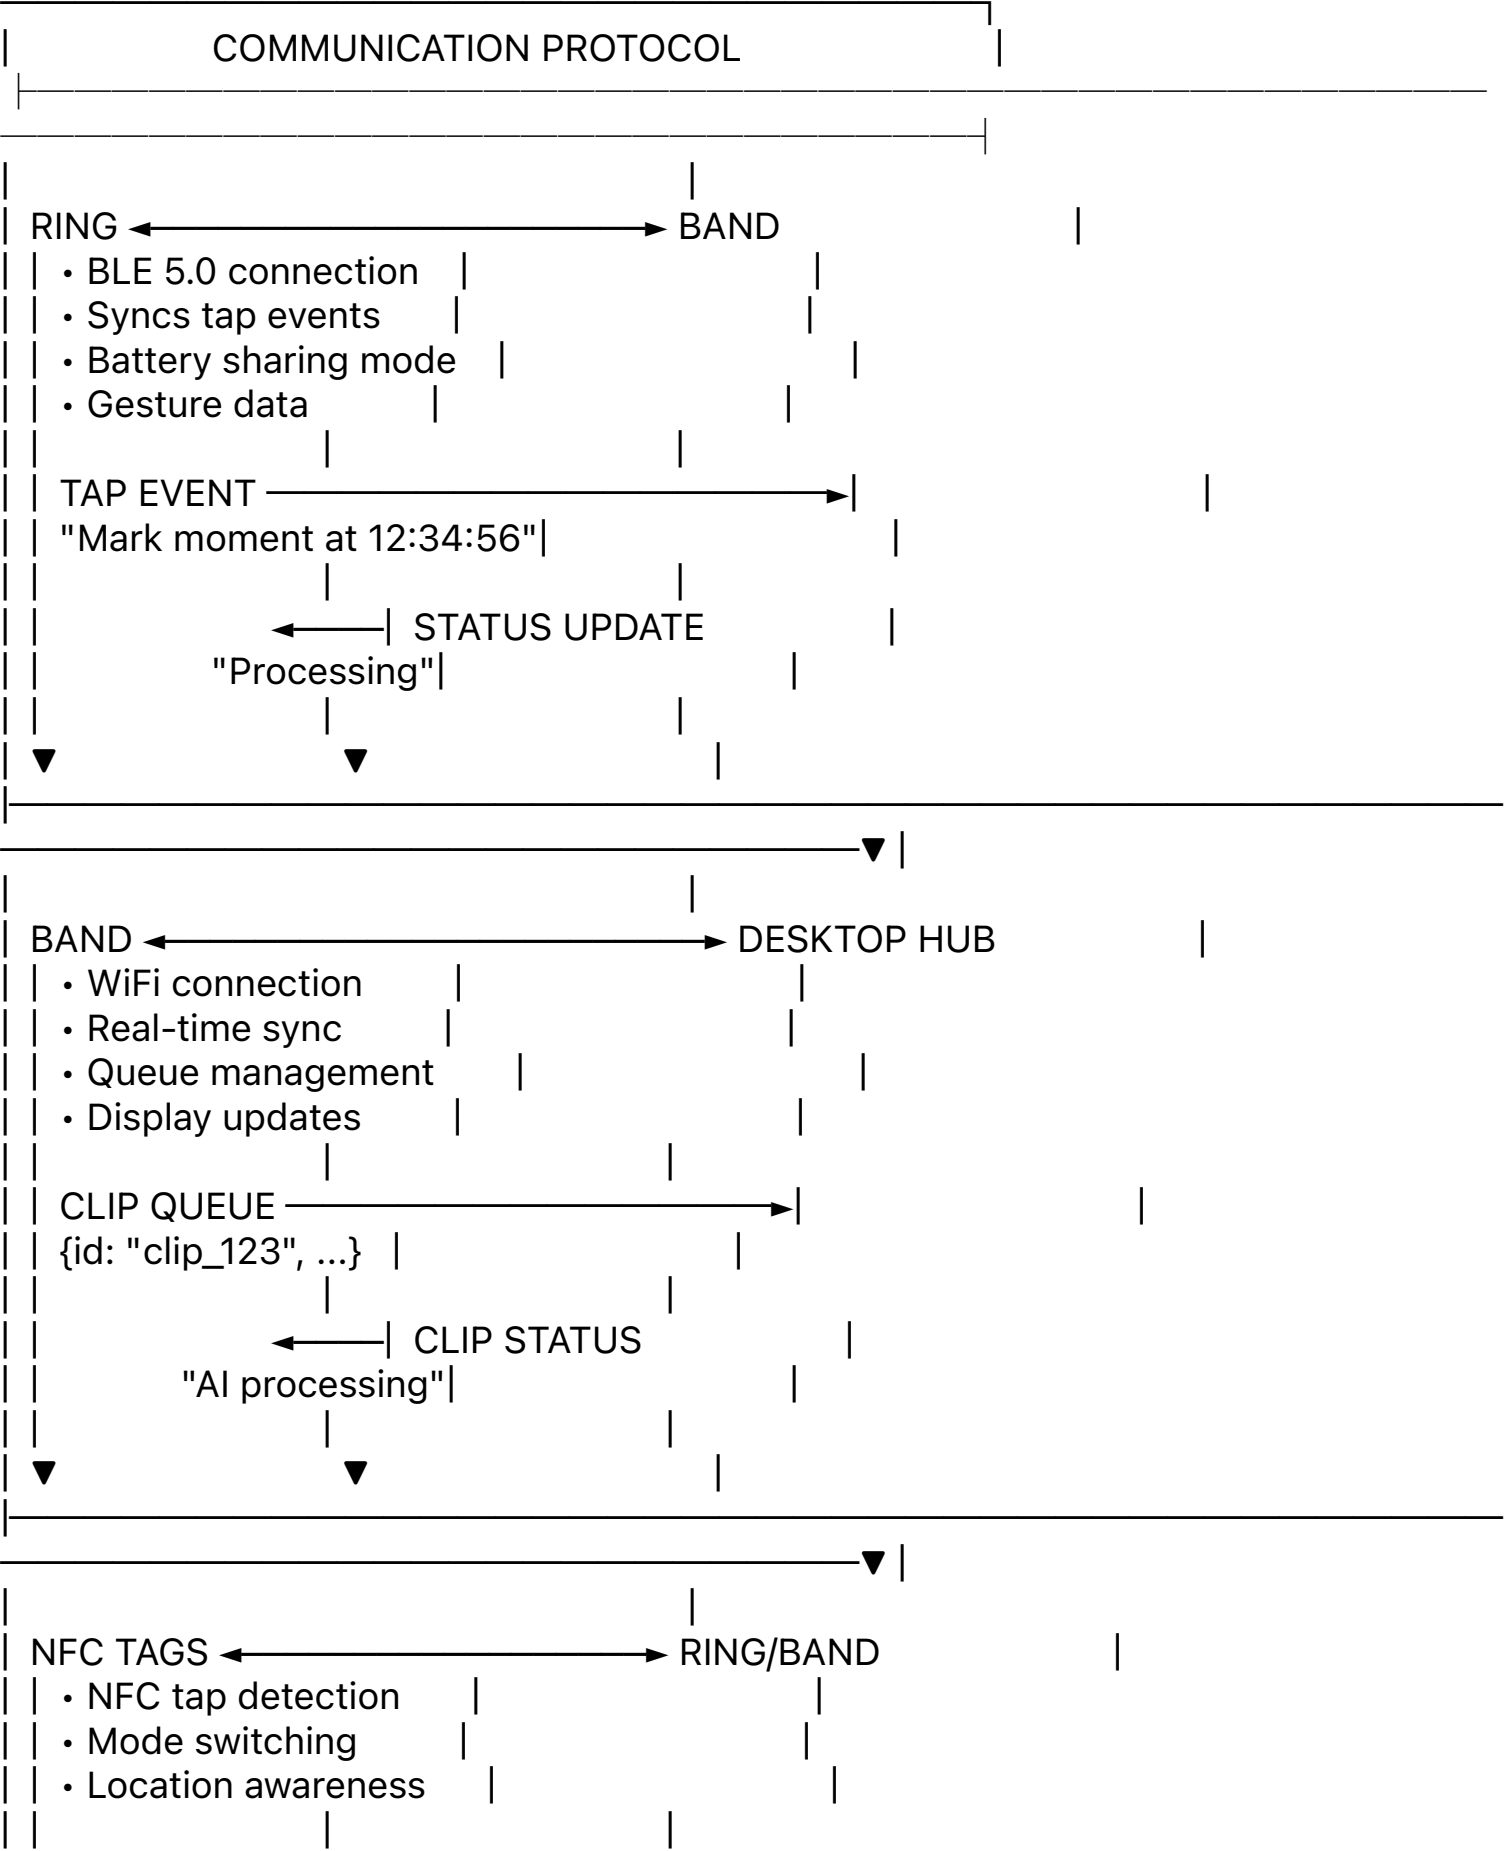

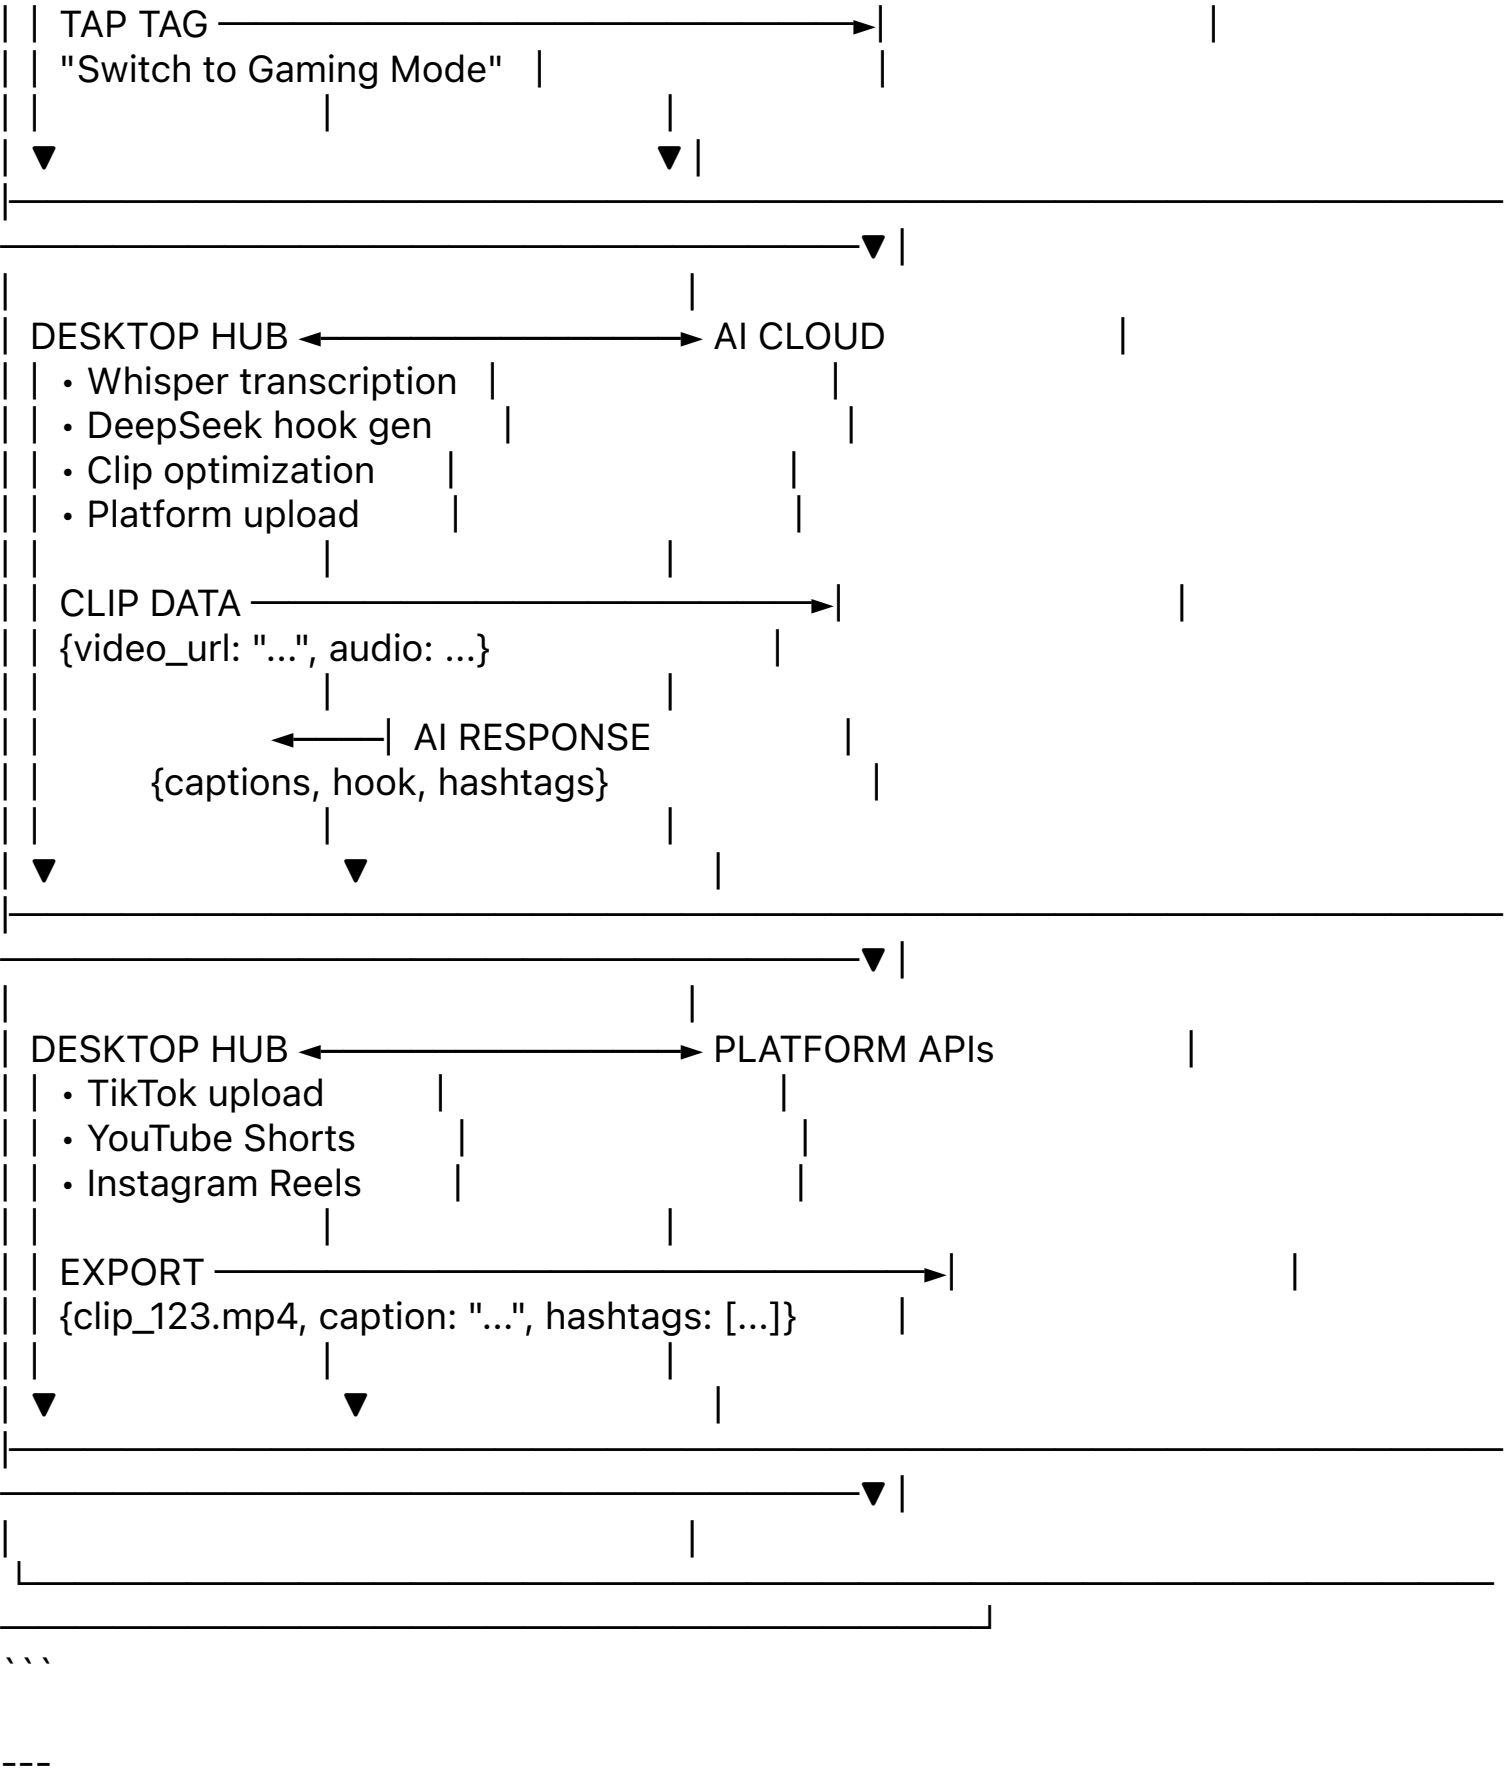

GOES VIRAL (maybe)

Communication Flow

...

5. Technical Architecture

Hardware Specifications

CLIPTI Ring (Prong 1)

Component	Specification
MCU	Nordic nRF52840
BLE	5.0 (2 Mbps)
NFC	ISO14443A/B
Battery	15mAh LiPo
Battery Life	7 days
Charging	Inductive (with Band)
Sensors	NFC antenna, accelerometer, capacitive touch
LED	8x WS2812 mini (single color)
Shell	Grade 5 Titanium
Weight	4-6 grams
Water	5 ATM
Sizes	6-13 US
BOM Cost	\$14.30

CLIPTI Band (Prong 2)

Component	Specification
MCU	ESP32-S3
BLE	5.0 + WiFi 6
Display	1.3" 360x360 AMOLED
Battery	200mAh LiPo
Battery Life	5 days
Charging	USB-C (magnetic)
Sensors	NFC, accelerometer, gyroscope, heart rate
LED	RGB WS2812 strip
Haptic	Linear resonance actuator
Shell	Aluminum + silicone
Weight	28 grams
Water	3 ATM
BOM Cost	\$22.50

CLIPTI NFC Tags (Prong 3)

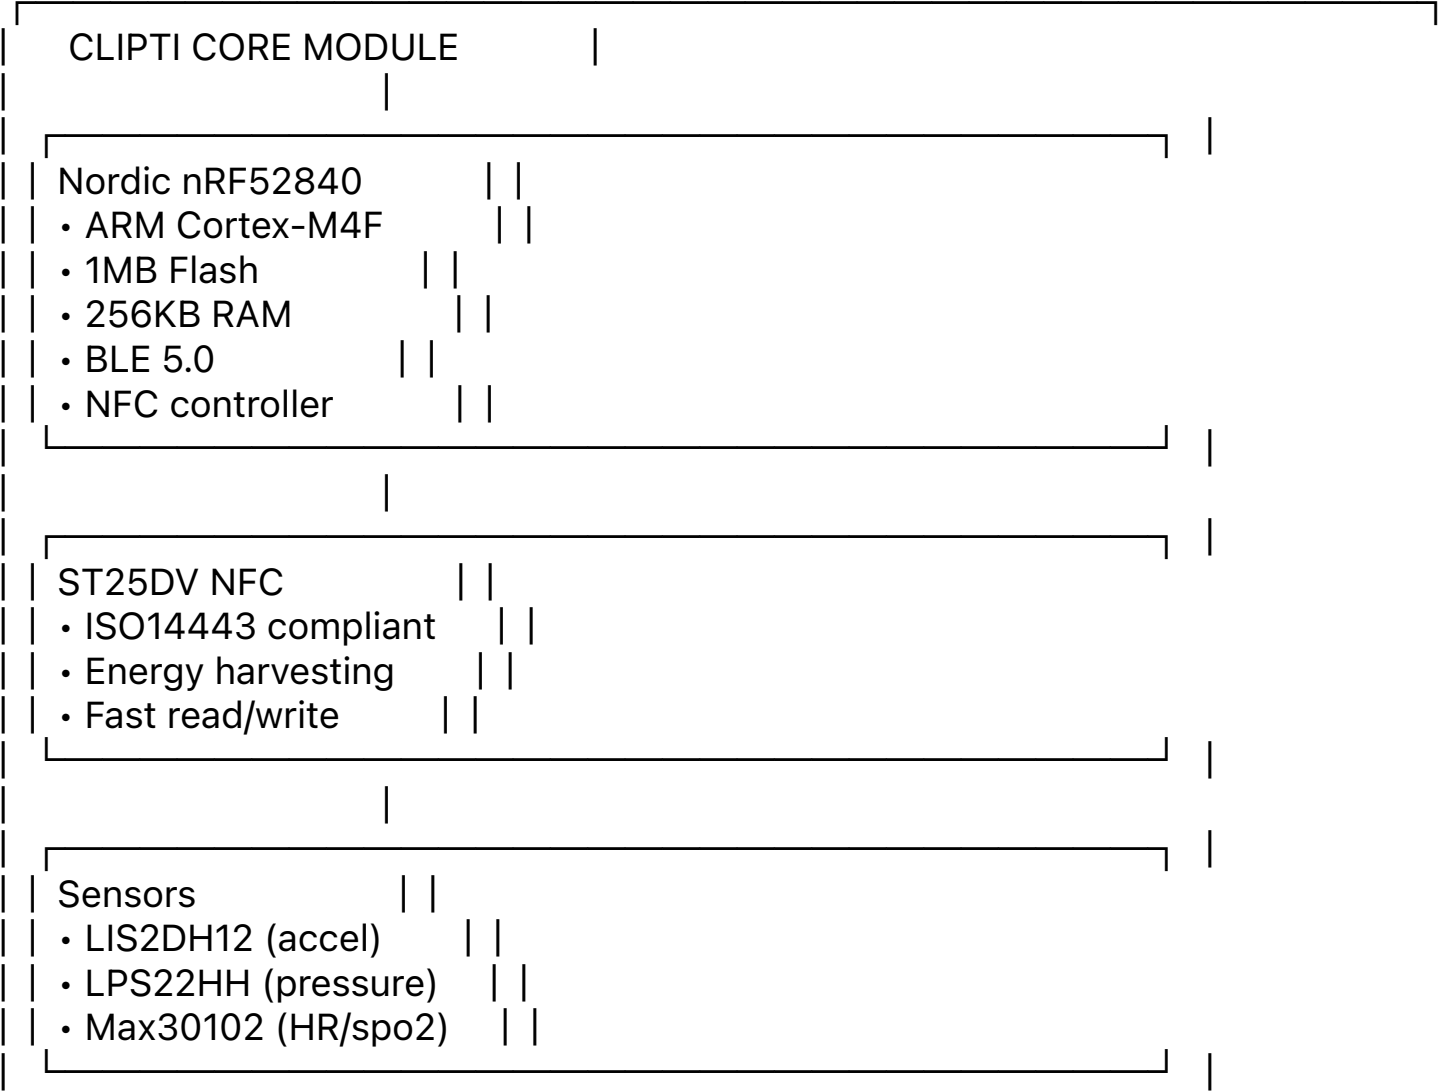

Component	Specification
-----------	---------------

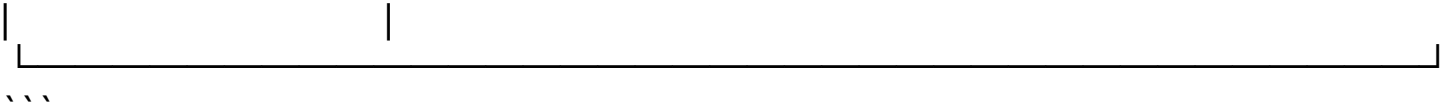

|-----|-----|
| **Type** | NTAG213/215/216 |
| **Memory** | 144/504/888 bytes |
| **Range** | 1-5cm |
| **Material** | PVC/ABS/Titanium |
| **Size** | 25mm / 30mm / Custom |
| **Battery** | None (passive) |
| **Water** | IP68 |
| **Custom** | Laser engravable |
| **Quantity** | 6 included |
| **BOM Cost** | \$3.00 each |

Shared Core Module

Both Ring and Band share a common core module:

...

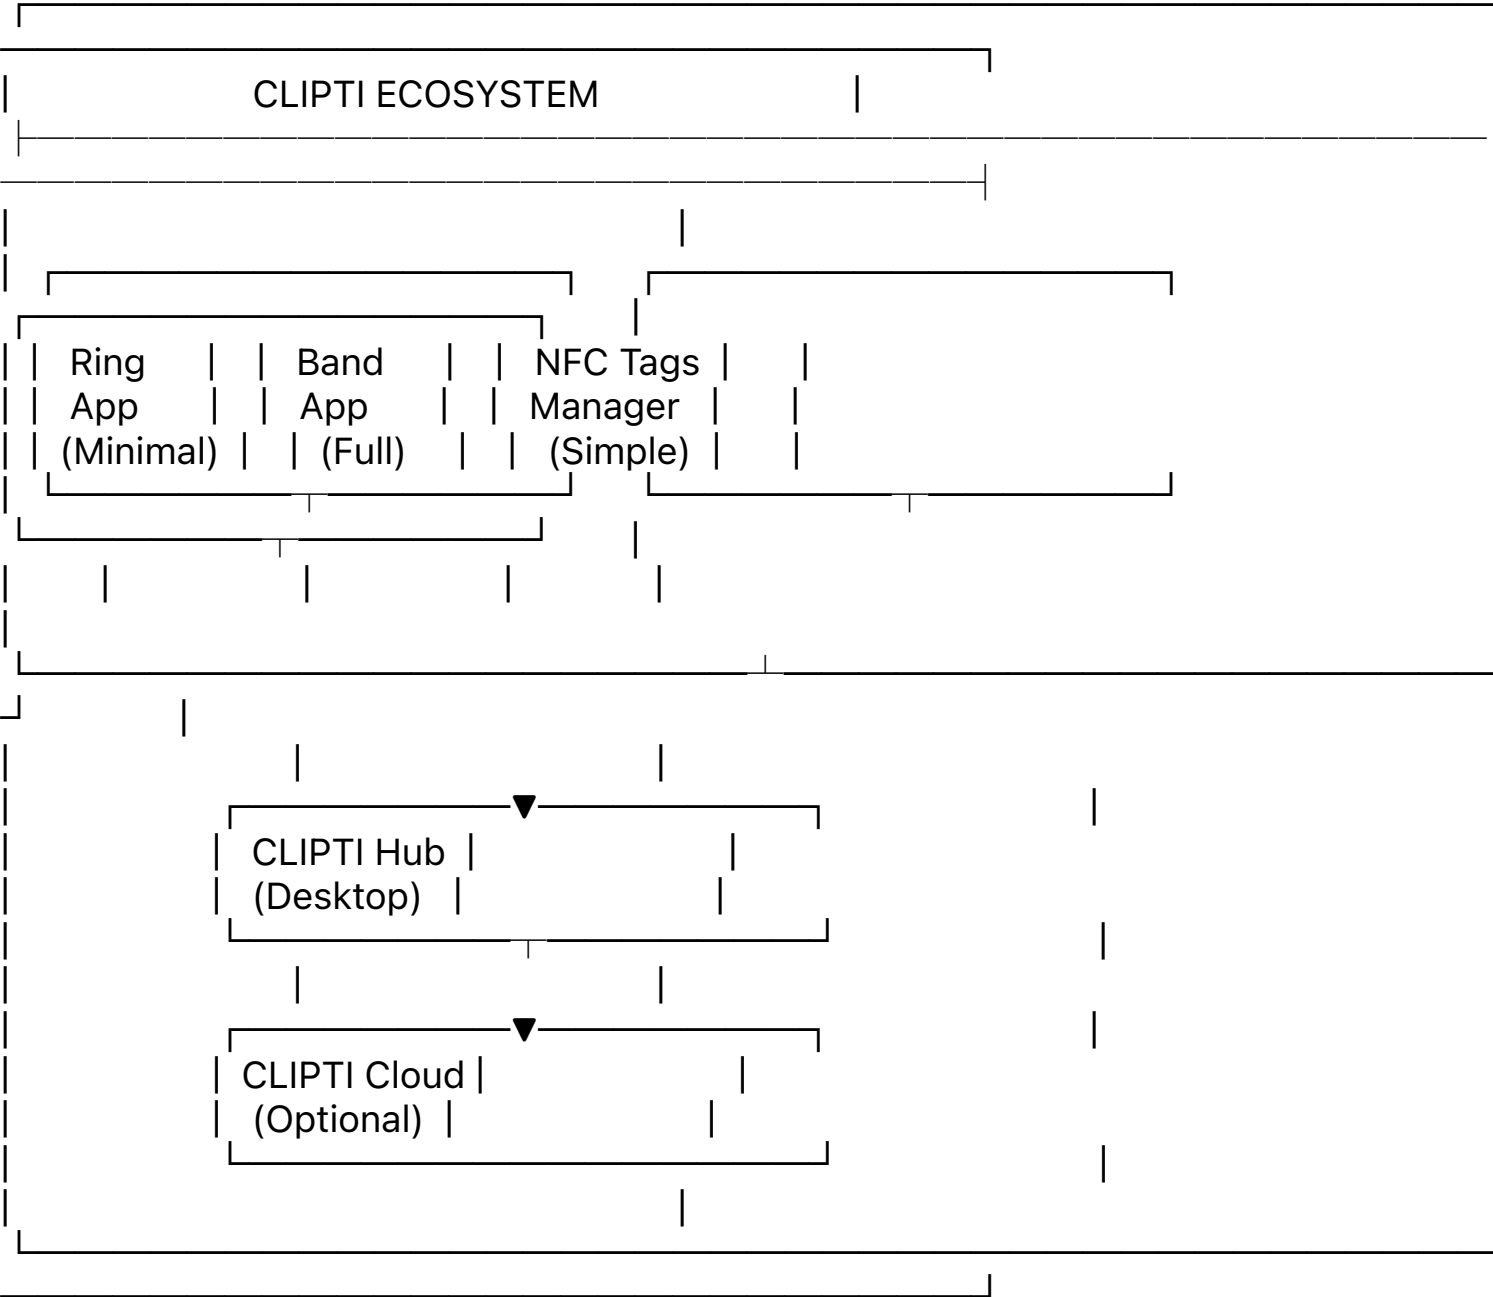

6. Software Architecture

Unified App Ecosystem

...

7. Use Cases: What Trident Enables

Use Case 1: The Gamer

///

Morning:

- Tap Ring on Gaming NFC Tag
- Band switches to "Gaming Mode"
- Desktop auto-opens OBS + stream settings

During Stream:

- Epic moment → Tap Ring
- Band flashes gold
- Clip auto-saved + AI processing
- Preview on Band
- Export with one tap

After Stream:

- Review all clips on Desktop Hub
- AI suggests best clip for TikTok
- Batch export + schedule

///

Use Case 2: The Podcaster

///

Setup:

- Tap Ring on Studio NFC Tag
- Band switches to "Recording Mode"
- Auto-enables high-quality capture
- Audio syncs to video

During Recording:

- Notable quote → Tap Ring
- Auto-saves clip with audio
- Transcription starts

- Captions generate in real-time

After Recording:

- Desktop shows all marked moments
- One-click create "Best of" compilation
- Export to YouTube + Clips

```

### ### Use Case 3: The Vlogger

```

Travel Day:

- Tap Ring on Travel NFC Tag
- Journey Mode activates
- Auto-captures moments throughout day
- Band shows "Journey: 2h 34m"

Ad-hoc Moments:

- Something interesting → Tap Ring
- Quick clip captured
- No phone needed
- Review later on Desktop

Evening:

- Review all day's clips
- AI creates "Daily Vlog" compilation
- One-tap export to YouTube

```

### ### Use Case 4: The Fitness Creator

```

Workout:

- Tap Ring on Gym NFC Tag
- Workout Mode activates
- Tracks reps via accelerometer
- Auto-marks "personal best" moments

Between Sets:

- Tap Ring to mark rest period
- Note technique tips
- Voice memo mode

- Post-Workout:
- Review all marked moments
 - AI creates workout highlights
 - Export for TikTok fitness audience
- ``

8. Business Model

Product Pricing

Product	Price	BOM	Margin	Purpose
----- ----- ----- ----- -----				
Trident Bundle	\$299	\$40	**86.6%**	Complete ecosystem
Ring Only	\$149	\$14	**90.6%**	Core wearable
Band Only	\$99	\$22	**77.8%**	Display + control
NFC Tags (6-pack)	\$29	\$18	**37.9%**	Environment setup
Starter Kit	\$179	\$32	**82.1%**	Ring + 6 Tags

Subscription Tiers

Tier	Price	Includes	Target
----- ----- ----- -----			
Free	\$0	Basic clipping, local storage, 1 device	Casual
Pro	\$9.99/mo	Unlimited clips, AI captions, cloud sync, 3 devices	Regular creators
Studio	\$29.99/mo	Team features, API, unlimited devices, priority AI	Pro creators
Enterprise	\$99/mo	SSO, dedicated support, custom integration	Teams/brands

Revenue Projections (Year 1)

Stream	Revenue
----- -----	
Hardware Sales	\$1.5M
Subscriptions	\$300K
NFC Tag Refills	\$100K
Enterprise	\$100K
Total	**\$2M**

9. Launch Strategy

Phase 1: Kickstarter (Month 1-3)

****Campaign: "CLIPTI TRIDENT: The Future of Content Creation"****

Tier	Price	Includes	Limit
-----	-----	-----	-----
Early Bird	\$199	Trident Bundle	500
Creator	\$229	Trident + Pro (1yr)	1000
Studio	\$349	2x Trident + Lifetime Pro	200
Founder	\$499	Trident + Personalized + Lifetime Pro	50

- **Goals:****
- 2,000 backers
 - \$500K raised
 - 10M impressions

Phase 2: Retail (Month 4-6)

- **Channels:****
- Amazon
 - Best Buy
 - Creator marketplaces
 - Direct website

Phase 3: Enterprise (Month 7-12)

- **Targets:****
- Podcast networks
 - Gaming organizations
 - Corporate training
 - Education

10. Why Trident Wins

Competitive Moat

Feature	CLIPTI Trident	Oura	WHOOP	Apple Watch
Tap-to-Clip	✓	✗	✗	✗
Creator Platform	✓	✗	✗	✗
AI Hooks	✓	✗	✗	✗
NFC Tags	✓	✗	✗	✗
Ring Form	✓	✓	✗	✗
Band Display	✓	✗	✓	✓
Unified Ecosystem	✓	✓	✗	✗
\$149-299	✓	✗	✗	✗

The Moat: Ecosystem Lock-in

Once creators buy into Trident:

- Ring captures moments
- Band displays queue
- NFC tags automate modes
- Desktop processes clips
- AI optimizes content
- Platforms export directly

****Switching cost = Rebuild entire workflow****

11. The Future: Beyond Year 1

Quarter 3: CLIPTI Glasses

- Smart glasses attachment
- POV capture
- Fits existing frames

Quarter 4: CLIPTI Earbuds

- Audio-aware capture
- Voice memo mode
- Ambient recording

Year 2: CLIPTI OS

- Unified operating system
- Cross-device continuity
- Creator AI assistant (ClipBot)
- Platform marketplace

Year 3: CLIPTI Network

- Creator social network
- Clip sharing
- Collaboration tools
- Revenue sharing

12. Investment Opportunity

Seed Round: \$3M

Use	Amount	Purpose
-----	-----	-----
Hardware R&D	\$1.2M	Trident development
Manufacturing	\$800K	Initial production
Marketing	\$600K	Kickstarter + launch
Team	\$300K	Key hires
Operations	\$100K	Systems

****Valuation:**** \$12M pre-money

****Milestones:****

- \$1M → MVP working
- \$2M → Kickstarter funded
- \$3M → Shipped to 5K customers

13. Next Steps

Week 1-4: Finalize Spec

- [] Ring PCB finalized
- [] Band display selected
- [] NFC tag programming defined
- [] Industrial design complete

Week 5-8: Prototype

- [] Ring prototype v0.1
- [] Band prototype v0.1
- [] NFC tag programming app

- [] BLE communication working

Week 9-12: Software

- [] Ring app MVP
- [] Band app MVP
- [] Desktop Hub MVP
- [] AI integration working

Week 13-16: Beta

- [] 100 beta testers
- [] Real-world testing
- [] Iterate design
- [] Prepare Kickstarter

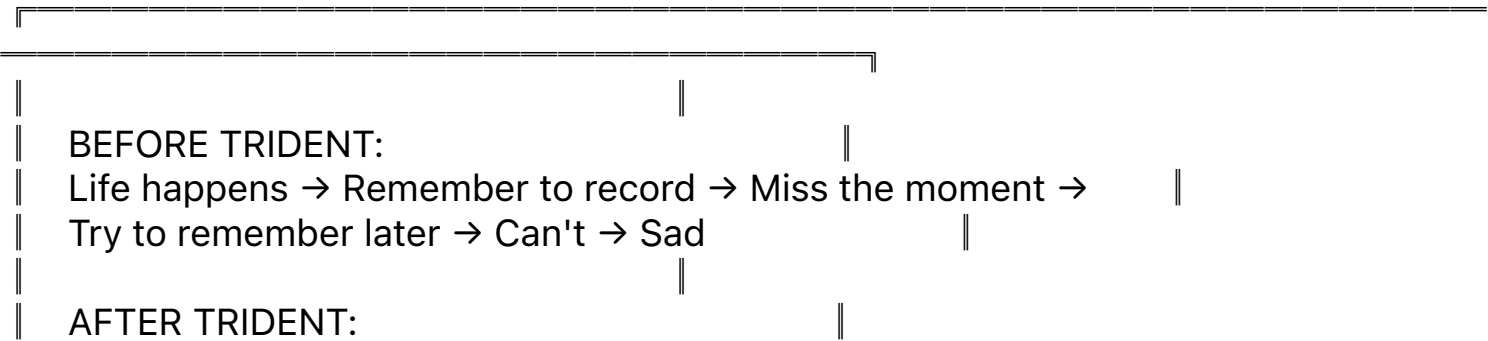

14. Success Metrics

Metric	Year 1	Year 2	Year 3
-----	-----	-----	-----
Revenue	\$2M	\$10M	\$50M
Customers	10K	50K	200K
Subscribers	1K	10K	50K
Clips Created	1M	10M	100M
Platform Exported	100K	1M	10M

15. The Vision

****CLIPTI TRIDENT is not just a wearable — it's the missing link between life and content.****

...

Life happens → Tap Ring → Captured → AI processes →
Content created → Shared → GOES VIRAL → Happy Creator

The ring never comes off.
The band never sleeps.
The NFC tags are everywhere.
The desktop processes everything.
The AI optimizes automatically.
The content goes viral naturally.

This is how a billion-dollar creator company is born:

1. **Hardware** → Trident wearable ecosystem
2. **Software** → CLIPTI Hub + AI processing
3. **Platform** → Creator network + marketplace
4. **Ecosystem** → Everything connected

CLIPTI TRIDENT: The Future of Content Creation is on Your Finger.

🔱 Ring | 🔱 Band | 🔱 NFC | Hub | AI | Export

Blueprint v3.0 — The Trident Vision
July 2026
CLIPTI Labs

Appendix A: Technical Specs Summary

Component	Ring	Band	NFC Tag	Desktop
MCU	nRF52840	ESP32-S3	NTAG213	N/A

BLE	5.0	5.0 + WiFi	N/A	N/A	
NFC				N/A	
Display		1.3" AMOLED		Full	
Battery	15mAh	200mAh	Passive	N/A	
Life	7 days	5 days	Forever	Always	
Water	5 ATM	3 ATM	IP68	N/A	
Weight	4-6g	28g	3g	N/A	
Price	\$149	\$99	\$29/6pk	Free	
BOM	\$14.30	\$22.50	\$3.00	N/A	

Appendix B: Patent Opportunities

1. **Unified wearable ecosystem** (Ring + Band + NFC)
2. **Tap-to-clip gesture system**
3. **Environmental mode switching via NFC**
4. **AI-driven clip optimization**
5. **Creator-centric wearable UI**
6. **Passive capture system**

Appendix C: Timeline

Quarter	Milestone	
-----	-----	
Q3 2026	Kickstarter launch	
Q4 2026	Ship to backers	
Q1 2027	Retail launch	
Q2 2027	Glasses prototype	
Q3 2027	Earbuds prototype	
Q4 2027	CLIPTI OS beta	
2028	Platform launch	
2029	Network launch
