

CLIPTI: Wearable Product Line Blueprint
From Clip Button to Creator Lifestyle Brand

Version 2.0 — Wearable Expansion

1. The Vision

CLIPTI isn't just a clip button — it's a **creator lifestyle wearable brand**.

Core Thesis: The next billion-dollar creator tech company won't make cameras or microphones. They'll make the device that captures the *moment* — wearable, ambient, always ready.

The Pivot:

- **Old:** Desktop accessory, dedicated hardware button
- **New:** Wearable lifestyle brand, 24/7 presence on the creator's body

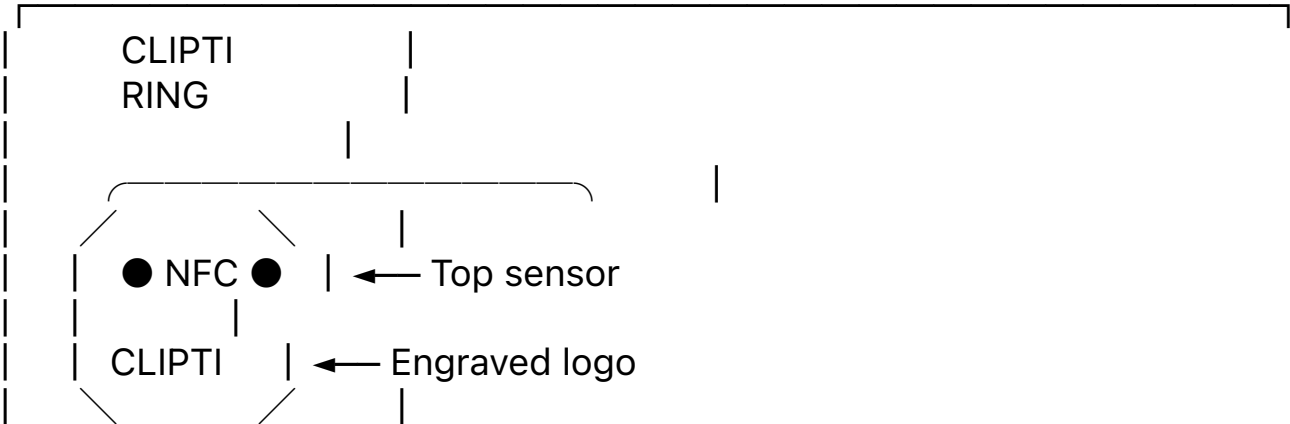

Why This Changes Everything:

1. **Always Accessible** — On your finger, wrist, or neck — no desk clutter
2. **Habit Formation** — Wearing it daily = using it daily
3. **Lifestyle Brand** — Beyond tools into identity
4. **Premium Pricing** — Wearables command \$79-349 vs \$79 standalone
5. **Mass Market** — Non-creators want it too (fitness, journaling, memories)

2. Product Line Overview

CLIPTI Ring

\\

Materials: Titanium / Ceramic	
Colors: Matte Black, Silver	
Sizes: 6-13 (US ring sizes)	

...

Spec	Value
-----	-----
Price	\$149
Form Factor	Finger ring
Size	2.5mm thick, 6-8mm wide
Materials	Grade 5 Titanium or Ceramic
Weight	4-6 grams
Battery	7 days
Water Resistance	5 ATM (50m)
Connectivity	BLE 5.0 + NFC
Sensors	NFC tap, accelerometer (tap detection)
LED	Subtle single-color (tap confirmation)

CLIPTI Band

...

CLIPTI BAND	
●●●●●●●●●●	
CLIPTI	
●●●●●●●●●●	
OLED 1"	
Status: OK	
12 clips	
●●●●●●●●●●	
Material: Silicone / Nylon	
Colors: Black, White, Neon	
Sizes: S, M, L (adjustable)	

```
| Spec | Value |
|-----|-----|
| **Price** | $99 |
| **Form Factor** | Wristband |
| **Display** | 1" OLED touchscreen |
| **Weight** | 25 grams |
| **Battery** | 5 days |
| **Water Resistance** | 3 ATM (30m) |
| **Connectivity** | BLE 5.0 + WiFi |
| **Sensors** | NFC tap, accelerometer, gyroscope |
| **Feedback** | RGB LED ring, haptic vibration |
| **Display** | Tap count, battery, clip queue |
```

CLIPTI Pendant

CLIPTI

sensor

CLIPTI Logo

[chain]

Materials: Stainless Steel /
Sterling Silver

Colors: Gold, Silver, Black

Chain: 18" / 20" / 24"

Spec	Value
-----	-----

****Price****	\$79
****Form Factor****	Necklace pendant
****Size****	20mm diameter, 4mm thick
****Materials****	316L Stainless Steel or 925 Silver
****Weight****	8 grams
****Battery****	14 days (coin cell)
****Water Resistance****	IP67
****Connectivity****	BLE 5.0 + NFC
****Sensors****	NFC tap
****Feedback****	LED pulse, haptic

CLIPTI Clip (Original)
` ` `

Spec	Value
****Price****	\$59
****Form Factor****	Clip/fob (desk or clothing)
****Weight****	35 grams
****Battery****	30 days (rechargeable)
****Water Resistance****	IP54
****Connectivity****	BLE 5.0 + USB-C charging

| ****Sensors**** | NFC tap, button press |
| ****Feedback**** | RGB LED, speaker beep |

3. Comparison Matrix

Feature	Ring	Band	Pendant	Clip
Price	\$149	\$99	\$79	\$59
Tap Detection	✓	✓	✓	✓
Haptic Feedback	✗	✓	✗	✓
Display	✗	✓	✗	✗
Battery Life	7 days	5 days	14 days	30 days
Water Resistance	5 ATM	3 ATM	IP67	IP54
Always On	✓	✓	✓	✗ (clip)
24/7 Wear	✓	✓	✓	✗
Premium Feel	✓	✓	✓	✓
Tech-Heavy	✓	✓	✗	✓
Target User	Minimalist	Power User	Fashion	Desk/Pro

4. Market Opportunity

Total Addressable Market

Segment	Size	Growth	Notes
Smart Rings	\$2.1B by 2028	21.3% CAGR	Oura, Samsung, RingConn
Smart Bands	\$15B by 2028	14.2% CAGR	WHOOP, Fitbit, Xiaomi
Smart Jewelry	\$1.18B by 2035	16.7% CAGR	Fashion + Tech
Creator Tech	\$5B+	25% CAGR	Streaming, clips
Total TAM	\$20B+	18% CAGR	All segments

Competitive Landscape

Competitor	Product	Price	What's Missing
Oura	Ring	\$349	No tap-to-clip, health-only
WHOOP	Band	\$239+	No tap-to-clip, fitness-only
Samsung	Galaxy Ring	\$299	No tap-to-clip

****Stream Deck****	Desktop	\$149	Not wearable, no AI
****Touch Portal****	Software	Free-\$50	No hardware
****CLIPTI****	****All Form Factors****	****\$59-149****	****Tap + AI + Creator Focus****

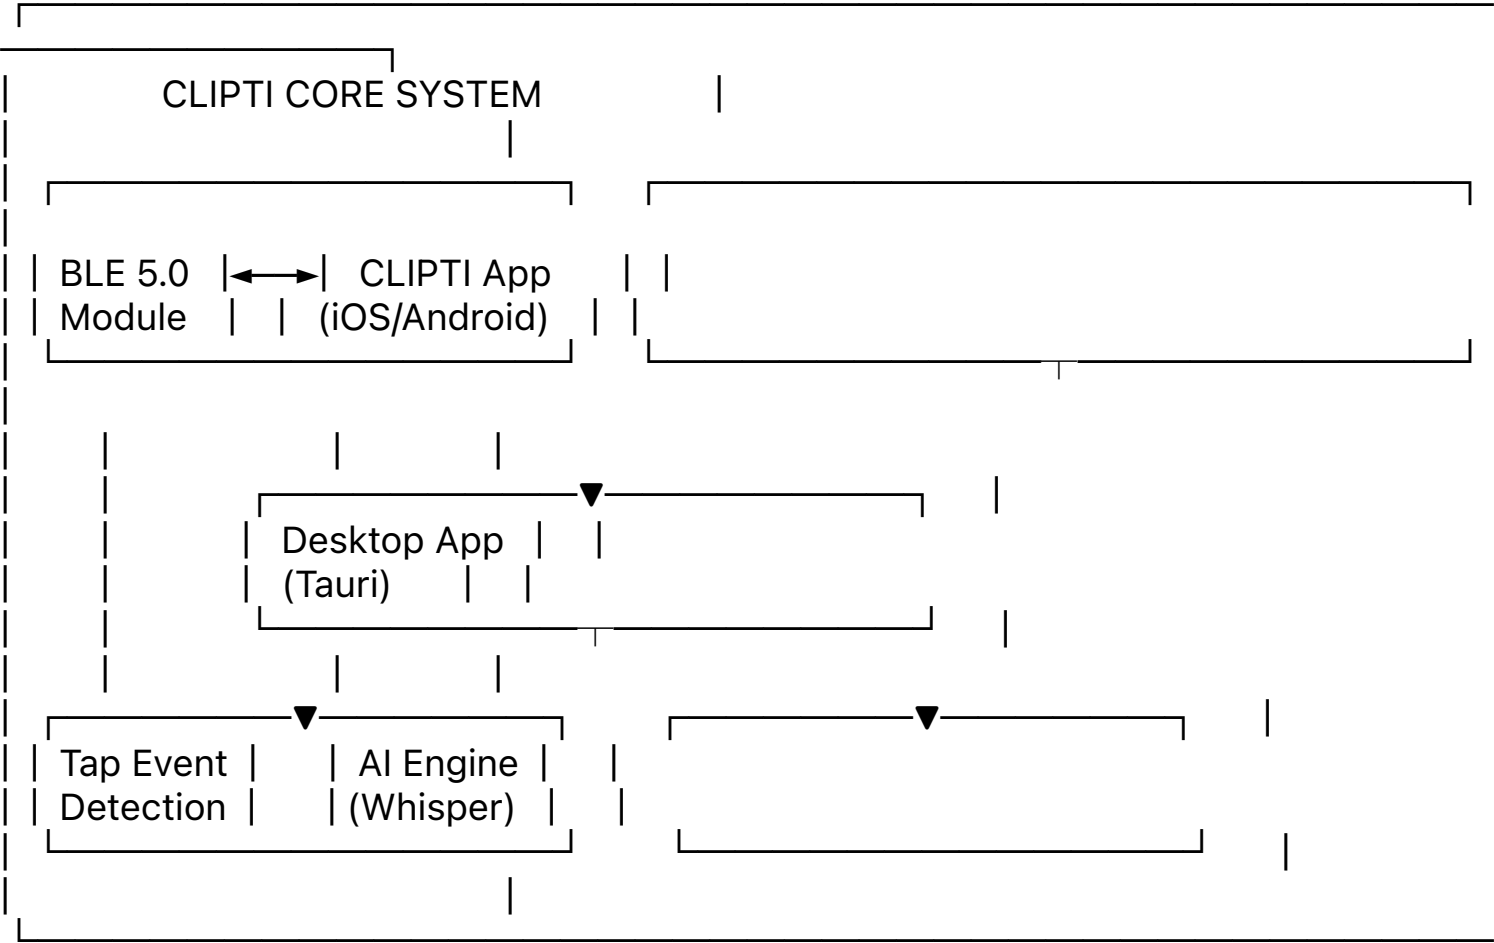

Gap We're Filling

- **No one is making a wearable that:****
- 1. Captures moments in real-time (not just tracking)
 - 2. Integrates with creator platforms (TikTok, YouTube)
 - 3. Has AI processing built-in
 - 4. Targets creators specifically
 - 5. Comes in multiple form factors

5. Technical Architecture

Shared Core (All Form Factors)

...

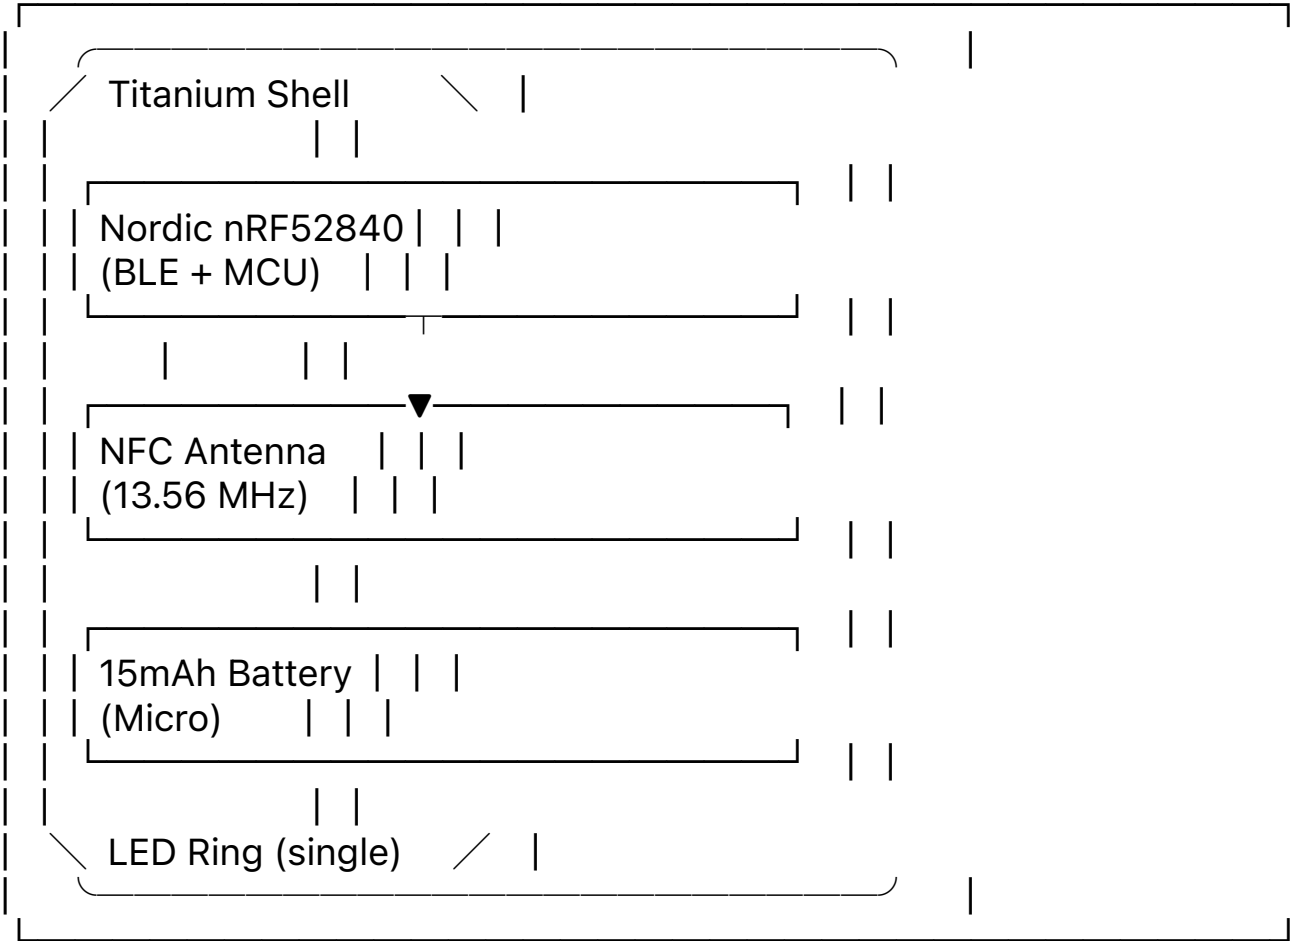

...

Ring Architecture

...

CLIPTI Ring (Cross-Section)

- Specifications:
- PCB: 4 layers, 0.8mm thickness
 - Flex PCB for curved form
 - Total thickness: 2.5mm
 - Battery: 15mAh LiPo (micro-coil)
- ...

Band Architecture

...

CLIPTI Band (Cross-Section)

Silicone Band				
1" OLED Display				
ESP32-S3 + NFC Module + IMU				
200mAh Battery (Flexible)				
Haptic Motor RGB LED Strip				

Specifications:

- Display: 1" 120x120 OLED
- Battery: 200mAh flexible LiPo
- Haptic: Linear resonance actuator
- Sensors: NFC, accelerometer, gyroscope

6. Hardware Specifications

Component Comparison

Component	Ring	Band	Pendant	Clip
MCU	nRF52840	ESP32-S3	nRF52832	ESP32-S3
BLE	5.0	5.0	5.0	5.0

****NFC****	 (ISO14443)	 (PN532)	 (ISO14443)	 (Button only)
****Battery****	15mAh	200mAh	40mAh (coin)	500mAh
****Charging****	Inductive	USB-C	Inductive	USB-C
****Battery Life****	7 days	5 days	14 days	30 days
****LED****	Single color	RGB strip	Single pulse	RGB ring
****Haptic****				
****Display****		 1" OLED		
****Waterproof****	5 ATM	3 ATM	IP67	IP54
****Weight****	4-6g	25g	8g	35g

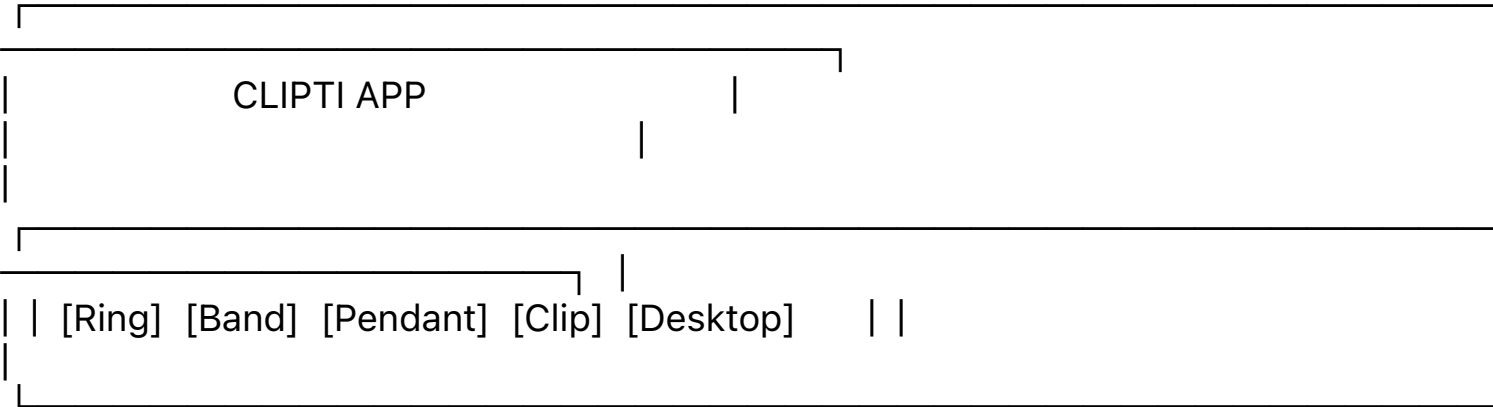

BOM Costs (Per Unit)

Component	Ring	Band	Pendant	Clip
MCU	\$2.50	\$3.00	\$1.50	\$3.00
NFC	\$0.80	\$2.00	\$0.80	N/A
Battery	\$0.50	\$2.00	\$0.30	\$2.50
Shell/Enclosure	\$3.00	\$2.00	\$2.50	\$2.00
PCB	\$2.00	\$3.00	\$1.50	\$2.00
Display	N/A	\$4.00	N/A	N/A
Haptic	N/A	\$1.50	N/A	\$1.00
Sensors	\$0.50	\$1.00	\$0.50	\$0.50
Assembly	\$5.00	\$4.00	\$3.00	\$3.00
Total BOM	**\$14.30**	**\$22.50**	**\$10.10**	**\$14.00**

8. Business Model

Pricing Strategy

Product	Price	Cost	Margin
CLIPTI Ring	\$149	\$14.30	**90.4%**
CLIPTI Band	\$99	\$22.50	**77.3%**
CLIPTI Pendant	\$79	\$10.10	**87.2%**
CLIPTI Clip	\$59	\$14.00	**76.3%**

Subscription Tiers

Tier	Price	Includes	Target
Free	\$0	Basic clipping, local storage, 1 device	Casual creators
Pro	\$9.99/mo	Unlimited clips, AI captions, cloud sync, 3 devices	Regular creators
Studio	\$29.99/mo	Team features, API, unlimited devices, priority AI	Pro creators
Creator Bundle	\$199 one-time	Ring + Clip + Lifetime Pro	Early adopters

Unit Economics

Product	Retail	COGS	Shipping	Margin
Ring	\$149	\$14.30	\$5.00	\$129.70 (87%)
Band	\$99	\$22.50	\$5.00	\$71.50 (72%)
Pendant	\$79	\$10.10	\$4.00	\$64.90 (82%)
Clip	\$59	\$14.00	\$4.00	\$41.00 (69%)

9. Launch Strategy

Phase 1: MVP Launch (Month 1-3)

Product: CLIPTI Ring (single SKU)

- Easiest to manufacture
- Most premium positioning
- Oura-style launch

Channels:

1. Kickstarter campaign
2. Product Hunt launch
3. Influencer seeding (tech reviewers)

Timeline:

- Month 1: Finalize PCB, tooling
- Month 2: Beta testing (100 units)
- Month 3: Kickstarter live

Goals:

- 1,000 backers
- \$150K raised
- 500 email signups

Phase 2: Product Line Expansion (Month 4-6)

Products: Band + Pendant

- Leverage Ring tooling
- Different price points
- Broader audience

****Channels**:**

1. Indiegogo for additional products
2. Pre-order on website
3. Amazon launch

****Goals**:**

- \$500K total revenue
- 3,000 units sold
- 50% repeat customers

Phase 3: Mass Market (Month 7-12)

****Products**:** All 4 form factors

- Clip (mass market entry)
- Ring (premium)
- Band (power users)
- Pendant (fashion)

****Channels**:**

1. Amazon
2. Best Buy
3. Creator direct (influencer affiliates)

****Goals**:**

- \$2M revenue
- 15,000 units
- \$100K MRR (subscriptions)

10. Influencer & Creator Strategy

Tier 1: Nano Influencers (1K-10K)

- ****Quantity**:** 500
- ****Product**:** Free Ring + 20% affiliate
- ****Expectation**:** Unboxing + 1-week review
- ****Reach**:** 2.5M impressions

Tier 2: Micro Influencers (10K-100K)

- ****Quantity**:** 100
- ****Product**:** Free Ring + 25% affiliate + \$100 bonus
- ****Expectation**:** In-depth review + use case video

- **Reach**: 5M impressions

Tier 3: Macro Influencers (100K-1M)

- **Quantity**: 20
- **Product**: Free + \$500-2,000
- **Expectation**: Dedicated video, sponsored content
- **Reach**: 10M impressions

Tier 4: Mega Influencers (1M+)

- **Quantity**: 2-5
- **Product**: Free + \$5,000-20,000
- **Expectation**: Multiple videos, brand deal
- **Reach**: 10M+ impressions

Total Expected Reach: 30M+ impressions

Total Influencer Cost: ~\$150K

Expected ROI: 10x (based on conversion rates)

11. Technical Roadmap

Q3 2026: Ring MVP

Milestone	Date	Status
PCB v1.0 complete	Week 4	
Prototype batch (10 units)	Week 8	
Beta testing (100 units)	Week 12	
Kickstarter launch	Week 14	
Production tooling	Week 16	
Ship to backers	Week 24	

Q4 2026: Band + Pendant

Milestone	Date	Status
Band PCB design	Week 20	
Pendant PCB design	Week 22	
Combined Indiegogo	Week 28	
Ship to backers	Week 36	

Q1 2027: Clip + Desktop v2

Milestone	Date	Status
Clip PCB redesign	Week 40	17
Desktop app v2	Week 44	17
Amazon launch	Week 48	17

— — —

12. Risk Analysis

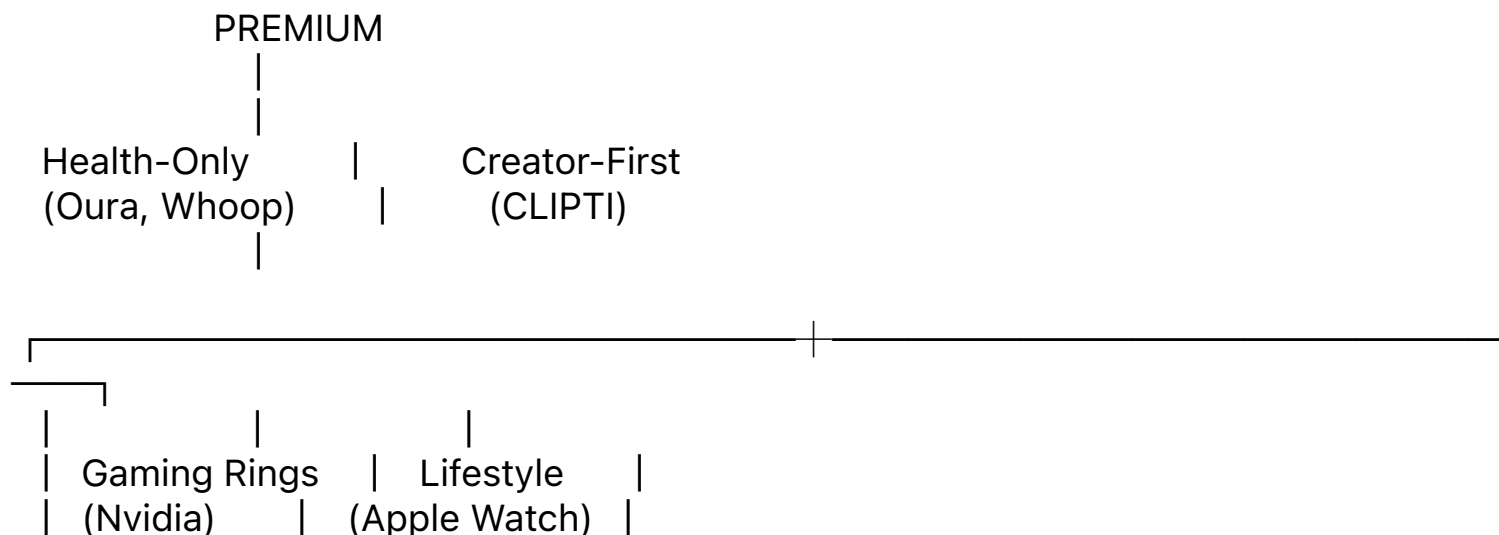

Risk	Probability	Impact	Mitigation
Hardware delays	Medium	High	Use module-based design, avoid custom ICs
Manufacturing issues	Medium	High	Partner with experienced CM (seeedstudio, JLCPCB)
Ring size returns	High	Medium	Sizing kit in box, 30-day exchange
Battery swelling	Low	High	Use reputable cells, extensive testing
BLE range issues	Medium	Low	Design for 10m+ range, USB-C fallback
Competition	Medium	Low	First-mover in creator segment
Supply chain	Medium	High	Multiple component suppliers

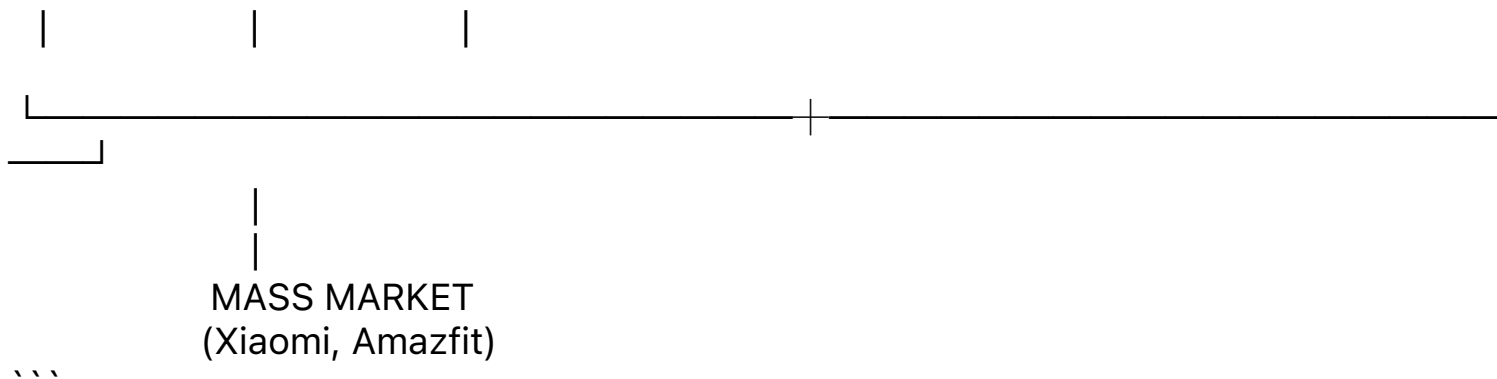

— — —

13. Competitor Positioning

Market Map

///

Our Position

- **CLIPTI owns the "Creator" quadrant:****
- Not just health tracking
 - Not just notifications
 - ****Purpose-built for capturing moments****
 - ****AI-powered content creation****
 - ****Multi-form-factor lifestyle brand****

14. Success Metrics

Year 1 Targets

Metric	Target
-----	-----
Revenue	\$2M
Units Sold	15,000
Backers/Pre-orders	5,000
MRR (Subscriptions)	\$100K
Active Users	10,000
NPS Score	50+
App Store Rating	4.5+
Press Mentions	100+
Social Followers	100K

Key KPIs

KPI	North Star	Target
-----	-----	-----
Clips Created	100K/day	1M total

****Daily Active Users****	50% of total	5,000 DAU
****Subscription Rate****	30% free→paid	3,000 subscribers
****Retention****	60% (6 months)	6,000 retained
****Viral Coefficient****	1.2	Organic growth

15. Future Vision

Year 2: Platform Expansion

****Products:****

- CLIPTI Glasses (smart glasses attachment)
- CLIPTI Watch (full smartwatch)
- CLIPTI Earbuds (audio-aware clipping)

****Features:****

- ****Auto-clip****: AI detects "viral-worthy" moments automatically
- ****Live Clipping****: Real-time clip generation during streams
- ****Multi-device Sync****: Ring + Band + Phone = unified system
- ****Platform Integration****: Direct post to TikTok, YouTube, Instagram
- ****Creator Marketplace****: Share clip templates, hooks, trends

Year 3: Ecosystem

****CLIPTI OS:****

- Unified app across all devices
- AI assistant (ClipBot)
- Creator analytics dashboard
- Brand partnership marketplace
- Team collaboration tools

****CLIPTI Cloud:****

- Cloud backup & sync
- AI processing (optional)
- Platform analytics
- Revenue tracking
- Creator network

16. Investment Ask

Seed Round: \$2M

Use of Funds	Amount	Percentage
Hardware R&D	\$800K	40%
Manufacturing	\$500K	25%
Marketing	\$400K	20%
Team	\$200K	10%
Operations	\$100K	5%

Milestones:

- \$500K → MVP Ring shipped
- \$1M → Product line launched
- \$2M → 10K units sold, \$500K ARR

Valuation

- **Pre-money**: \$8M
- **Post-money**: \$10M
- **Equity offered**: 20%

17. Why Now

Market Timing

1. **Smart rings are mainstream**
 - Oura proved the category
 - Samsung entered
 - Prices dropping
2. **Creator economy is exploding**
 - 50M+ creators
 - \$250B market
 - They NEED tools
3. **AI makes it possible**
 - Whisper: Free transcription
 - DeepSeek: Cheap hooks
 - No cloud dependency

4. ****Supply chain is mature****

- ESP32: \$3.50
- NFC modules: \$2.00
- PCB assembly: \$5/unit

First-Mover Advantage

- No one is targeting creators specifically
- Oura, WHOOP = health only
- Stream Deck = desktop only
- CLIPTI = wearable + AI + creator

18. The Team

Required Roles

Role Responsibility
----- -----
CEO/Founder Vision, fundraising, partnerships
CTO Hardware, firmware, AI
Industrial Designer Form factor, ergonomics
Backend Engineer Cloud, API, integrations
Frontend Engineer Mobile app, dashboard
Marketing Lead Brand, growth, PR

Advisors

- 1x Hardware veteran (previous IoT startup)
- 1x Creator economy founder
- 1x Industrial designer (watch/jewelry)

19. Next Steps

Immediate (Week 1-4)

1. ****Finalize Ring spec****
 - PCB dimensions
 - Battery selection

- Materials (Titanium vs Ceramic)

2. ****Order dev kits****

- nRF52840 modules
- NFC antennas
- Flexible PCBs

3. ****Prototype v0.1****

- Hand-assembled
- Basic BLE communication
- Tap detection test

4. ****Design concept****

- Industrial design
- 3D renders
- Marketing photos

90-Day Plan

| Week | Milestone |

|-----|-----|

| 1-4 | Spec finalized, dev kits ordered |

| 5-8 | PCB designed, prototype v0.1 |

| 9-12 | Working prototype, user testing |

| 13-16 | Iterate design, prepare Kickstarter |

| 17-20 | Soft launch (100 beta testers) |

| 21-24 | Kickstarter live |

20. Contact

****CLIPTI Labs****

- Website: clipti.com
- Email: founders@clipti.com
- Twitter: @clipti

****Seeking:****

- Pre-seed/Seed funding: \$500K-\$2M
- Hardware manufacturing partners
- Influencer partnerships
- Beta testers

Blueprint created: July 2026
Version: 2.0 (Wearable Expansion)
Status: Ready for development

Appendix A: Technical References

Key Components

Component	Part Number	Supplier	Cost
BLE MCU	nRF52840	Nordic Semi	\$2.50
BLE MCU	ESP32-S3	Espressif	\$3.00
NFC IC	ST25DV	STM	\$0.80
NFC Antenna	Custom	JLCPCB	\$0.20
Battery (Ring)	15mAh LiPo	TDK	\$0.50
Battery (Band)	200mAh LiPo	LG	\$2.00
OLED Display	1" 120x120	WiseChip	\$4.00
Haptic Motor	LRA	Precision Micro	\$1.50

Manufacturing Partners

Partner	Speciality	Location
Seeed Studio	Prototyping	Shenzhen
JLCPCB	PCB assembly	Global
Long电子	Battery cells	China
PCH	Fulfillment	USA
Flex	Volume assembly	Global

Appendix B: Patent Opportunities

- **Tap-to-clip gesture** (novel use)
- **Wearable-to-desktop handoff** (seamless workflow)
- **AI clip scoring** (viral prediction)
- **Creator-centric wearable UI** (form factor)

5. **Ambient recording indicator** (LED feedback)

Appendix C: Competitive Analysis Deep Dive

Oura Ring (\$349)

Strengths:

- Market leader
- Premium design
- Strong brand

Weaknesses:

- Health-only
- No tap feature
- No creator integration
- Expensive

CLIPTI Advantage: 50% cheaper, creator-focused, tap-to-clip

WHOOP Band (\$239+)

Strengths:

- Fitness focus
- Subscription model
- Recovery metrics

Weaknesses:

- Band form factor only
- No tap feature
- Fitness-only
- Monthly subscription

CLIPTI Advantage: Multiple form factors, no subscription required, creator features

Samsung Galaxy Ring (\$299)

Strengths:

- Ecosystem integration
- Brand power
- Health tracking

****Weaknesses:****

- Samsung-only
- No tap feature
- Health-only
- No creator tools

****CLIPTI Advantage:**** Platform-agnostic, creator-first, tap-to-clip

End of Blueprint v2.0
